Communication Research Asking Questions Finding Answers:

Communication Research Joann Keyton, 2018 **Communication Research** Joann Keyton, 2023 Thank you for picking up this book and reading the preface I am a communication researcher who conducts and publishes quantitative and qualitative research I am always learning something new about research methods and perhaps most central to this preface I really enjoy teaching research methods courses I designed this research methods book to help students overcome their fear of research methods and to provide instructors with foundational material for their classroom use Over the previous editions including this one I have received a substantial amount of feedback of how the book could be more effective for both instructors and students Most directly I receive feedback from my students when I teach undergraduate and graduate research methods courses More formal feedback has come from the publisher who seeks professional reviews of textbooks before an author begins work on a new edition Other times feedback has come informally from conversations at conferences or in e mails from nstructors or students using the book I m grateful for everyone who has taken the time to comment to point out what s good or bad and to suggest what they would like to see in a new edition and what they hope I will remove So simply the goal of this book is to be helpful to instructors in teaching research methods and to be supportive to students who are learning research methods My other goal is to focus on communication research I emphasize communication as all of the examples used in book are drawn from the published research of communication scholars in communication or communication related journals I hope you will and you will encourage your students to go back to these cited sources

Looseleaf for Communication Research: Asking Questions, Finding Answers Joann Keyton, 2018-03-19

Communication Research Asking Questions Finding Answers covers basic research issues and processes both quantitative and qualitative appropriate for communication students with little or no previous research methods experience The text s guiding principle is that methodological choices are made from one s research questions or hypotheses This avoids the pitfall in which students learn one methodology or one methodological skill and then force that method to answer all types of questions Instead of working with one methodology to answer all types of questions students come away understanding a variety of methods and how to apply them appropriately Instructors and students can now access their course content through the Connect digital learning platform by purchasing either standalone Connect access or a bundle of print and Connect access McGraw Hill Connect is a subscription based learning service accessible online through your personal computer or tablet Choose this option if your instructor will require Connect to be used in the course Your subscription to Connect includes the following SmartBook an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content Access to your instructor s homework assignments quizzes syllabus notes reminders and other important files for the course Progress dashboards that quickly show how you are performing on your assignments and tips for improvement The option to purchase for a small fee a print version of the book
