Dierick,1987-12-15 An extreme sensitivity to gathering social crisis an accompanying angry enthusiasm for artistic experimentation and renewal this compelling mix in German art poetry and drama of the period 1910 to 1925 continues to draw both scholarly attention and intense popular interest In this book Augustinus Dierick focuses on another significant but hitherto neglected medium of German Expressionist thought short narrative prose in order to illuminate and evaluate the contribution of that genre to one of the twentieth century's most powerful artistic movements Dierick's study includes a thorough analysis of the works of a broad range of Expressionist prose writers from those of such specialists in the genre as Edschmid Heym Benn Loerke Frank Sternheim Ehrenstein and Mynona to the shorter prose works of such major figures as Alfred Döblin Heinrich Mann Max Brod and Franz Werfel Dierick isolates the thematic obsessions common among Expressionist writers the pathos of the self in confrontation with nature and with God the tension between self and the institutions of bourgeois society and the attractions and dangers of eroticism Throughout Dierick stresses the interrelationship between themes and their formal expression He examines many apparent excesses in style and tone many aberrations in structure and generic characteristics and identifies them not as needless experimentation but as a necessary result of the attempt to find appropriate forms for extreme situations and complex ideas Dierick's analysis makes clear that Expressionist prose has an intrinsic artistic value and because of certain nuances and different accents must be included in any estimation of the nature and importance of Expressionism as a whole *A History of Roman Literature* Michael von Albrecht,1997 The Phenomenon of Literature Bennison Gray,2018-12-03 No detailed description available for The Phenomenon of Literature

On the Rationality of Poetry Frank Finlay,2024-03-25 This study explores Heinrich Böll's

aesthetic thinking as it is expressed in the author's disparate and voluminous writings on literature. Böll's work in this field is situated in the multi-faceted context of social, political and cultural developments in post-war Germany and is shown to be an important adjunct to the novels and stories which were honoured with the Nobel Prize for Literature. An understanding of Heinrich Böll's aesthetic thinking can illuminate the writer's fiction in an intriguing way. In particular, Böll's defence of the rationality of poetry raises issues which reverberate in continuing debates on the social validity of literature.
