**Managing Brand Equity** David A. Aaker, 2009-12-01 The most important assets of any business are intangible its company name brands symbols and slogans and their underlying associations perceived quality name awareness customer base and proprietary resources such as patents trademarks and channel relationships These assets which comprise brand equity are a primary source of competitive advantage and future earnings contends David Aaker a national authority on branding Yet research shows that managers cannot identify with confidence their brand associations levels of consumer awareness or degree of customer loyalty Moreover in the last decade managers desperate for short term financial results have often unwittingly damaged their brands through price promotions and unwise brand extensions causing irreversible deterioration of the value of the brand name Although several companies such as Canada Dry and Colgate Palmolive have recently created an equity management position to be guardian of the value of brand names far too few managers Aaker concludes really understand the concept of brand equity and how it must be implemented In a fascinating and insightful examination of the phenomenon of brand equity Aaker provides a clear and well defined structure of the relationship between a brand and its symbol and slogan as well as each of the five underlying assets which will clarify for managers exactly how brand equity does contribute value The author opens each chapter with a historical analysis of either the success or failure of a particular company s attempt at building brand equity the fascinating Ivory soap story the transformation of Datsun to Nissan the decline of Schlitz beer the making of the Ford Taurus and others Finally citing examples from many other companies Aaker shows how to avoid the temptation to place short term performance before the health of the brand and instead to manage brands strategically by creating developing and exploiting each of the five assets in turn **Building Strong Brands** David A. Aaker, 2011-11-08 As industries turn increasingly hostile it is clear that strong brand building skills are needed to survive and prosper In David Aaker s pathbreaking book **Managing Brand Equity** managers discovered the value of a brand as a strategic asset and a company s primary source of competitive advantage Now in this compelling new work Aaker uses real brand building cases from Saturn General Electric Kodak Healthy Choice McDonald s and others to demonstrate how strong brands have been created and managed A common pitfall of brand strategists is to focus on brand attributes Aaker shows how to break out of the box by considering emotional and self expressive benefits and by introducing the brand as person brand as organization and brand as symbol perspectives The twin concepts of brand identity the brand image that brand strategists aspire to create or maintain and brand position that part of the brand identity that is to be actively communicated play a key role in managing the out of the box brand A second pitfall is to ignore the fact that individual brands are part of a larger system consisting of many intertwined and overlapping brands and subbrands Aaker shows how to manage the brand system to achieve clarity and synergy to adapt to a changing environment and to leverage brand assets into new markets and products Aaker also addresses practical management issues introducing a set of brand

equity measures termed the brand equity ten to help those who measure and track brand equity across products and markets He presents and analyzes brand nurturing organizational forms that are responsive to the challenges of coordinated brands across markets products roles and contexts Potentially destructive organizational pressures to change a brand s identity and position are also discussed As executives in a wide range of industries seek to prevent their products and services from becoming commodities they are recommitting themselves to brands as a foundation of business strategy This new work will be essential reading for the battle ready     Managing Brand Equity David A. Aaker,2000-07 The most important assets of any business are intangible its company name brands symbols and slogans and their underlying associations perceived quality name awareness customer base and proprietary resources such as patents trademarks and channel relationships These assets which comprise brand equity are a primary source of competitive advantage and future earnings Few people understand brand equity and how it must be implemented Provides a clear and well defined structure of the relationship between a brand and its symbol and slogan as well as each of the five underlying assets which clarifies exactly how brand equity does contribute value Illustrated     *Brand Leadership* David A. **Brand Portfolio Strategy** David A. Aaker, 2020-03-24. In this long-awaited book from the world's premier brand expert and author of the seminal work *Building Strong Brands*, David Aaker shows managers how to construct a brand portfolio strategy that will support a company's business strategy and create relevance, differentiation, energy, leverage, and clarity. Building on case studies of world-class brands such as Dell, Disney, Microsoft, Sony, Dove, Intel, CitiGroup, and PowerBar, Aaker demonstrates how powerful cohesive brand strategies have enabled managers to revitalize brands, support business growth, and create discipline in confused, bloated portfolios of master brands, subbrands, endorser brands, co-brands, and brand extensions. Renowned brand guru Aaker demonstrates that assuring that each brand in the portfolio has a clear role and actively reinforces and supports the other portfolio brands will profoundly affect the firm's profitability. *Brand Portfolio Strategy* is required reading not only for brand managers but for all managers with bottom-line responsibility to their shareholders.

Summary: Building Strong Brands BusinessNews Publishing, 2013-02-15. The must-read summary of David Aaker's book *Building Strong Brands*. How the Best Brand Managers Build Brand Equity. This summary of the ideas from David Aaker's book *Build Strong Brands* shows that a strong brand creates customer interest and loyalty and can be an organization's most valuable strategic asset. Therefore, the process of adding value to a brand so that it has greater equity in the future is termed a brand identity program. Through the integration of additional product attributes, organizational attributes, personality characteristics, and visual imagery including symbols, the brand identity program adds value to the brand in the future. In essence, this summary highlights that a strong brand is the strategic asset which holds the key to the long-term performance of any organization; any initiative focused on building the value of the brand is integral to the long-term viability of the organization itself. Added value of this summary: Save time. Understand the key concepts. Increase your business knowledge.
