

COMPETENT COMMUNICATION MANUAL (NEW)

Project #1: THE ICE BREAKER

Executive Summary:

For your first speech project, you will introduce yourself to your fellow club members and give them some information about your background, interests and ambitions. Practice giving your speech to friends or family members, and strive to make eye contact with some of your audience. You may use notes during your speech if you wish. Read the entire project before preparing your talk.

Objectives:

- To begin speaking before an audience.
- To discover speaking skills you already have and skills that need some attention.
- Time: Four to six minutes.

Note To The Evaluator:

In this speech the new member is to introduce himself/herself to the club and begin speaking before an audience. The speech should have a clear beginning, body and ending. The speaker has been advised to use notes if necessary and not to be concerned with body language. Be encouraging and point out the speaker's strong points while gently and kindly mentioning areas that could be improved. Strive to have the speaker look forward to giving another speech. Your evaluation should help the speaker feel glad about joining Toastmasters and presenting this speech. In addition to your oral evaluation, please write answers to the questions below.

Mentoring Derrick Trimble, 2015-01-13 The gift of mentoring is one of the benefits offered through a Toastmasters International club educational program. If a club has a mentoring program established, this book will stimulate new thinking for consideration. Is a club struggling to meet the expectation of a mentoring program? Mentoring Value Based Empowerment offers insights for developing a transformational mentor experience. An essential element of any successful club level mentoring program is to demonstrate the Toastmasters International values of respect, integrity, service, and excellence.

Journey from CC1 to CC10 Rukhman Singh Rathore, The book is a compilation of my first 10 speeches in Toastmasters. These speeches are the 10 projects from the Competent Communicator manual that is given to every new member who joins Toastmasters. This book was written in order to record the work done by me. Raising a Toast Pramit Pratim Ghosh, 2021-02-05 Raising a Toast is a compilation of 20 speeches that I had the good fortune of delivering in my journey as a Toastmaster. Most of these speeches have sprung from my personal anecdotes, some funny, some thought provoking. Few speeches will tell you stories of past and present of people and places through my eyes. And then there are a couple of speeches that raise some questions for you and me to reflect upon. But one common link that binds them all is the stage of Toastmasters where they found life. Each of these speeches gave me an opportunity to pen down some burning message inside of me to share my story to any audience which was willing to listen to connect with those who took back something from what I had to say. Raising a Toast is a humble attempt to carry these anecdotes, these stories, these questions from the conventional stage to the paperback stage. Written with the sole agenda of reaching out to more souls out there who are willing to listen. And with the hope that when they read this, they get inspired to share their set of stories with the world.

BEST SPEAKER Sardar Mostofa, 2017-03-18 A good book and a good teacher can make a complicated subject easy and make the learning process highly effective. There are NO SECRETS to learn but effective ways to learn and teach. This book has been written with that objective. I have read many books in my journey to learn public speaking. Most books describe the techniques or the process from a third person or theoretical point of view. I was looking for a book with step by step growth from the doer or the first person perspective. This book bridges that gap. This book incorporates years of self awareness based learning into the teaching style of this powerful guidebook. It teaches a step by step natural learning process and how to put that learning to practice immediately. The materials provided in this book have been assembled and proven over my eight years of continuous research and testing. Every tool and technique provided in this book has been confirmed. Everything you will be learning from this book is what I've researched, understood, and repeatedly tested with great success. If you have read this book, you may want to share your learning experience with others by providing a review or rating. If you are buying it in bulk quantities, please let others know your experience with this book by giving a review or rating.
