Supreme Authority J. Norval Geldenhuys, 2008-01-01 Supreme Authority is a book whose author s Commentary on the Gospel of Luke has been called by many Bible scholars the best modern commentary on the third gospel This present volume deals with the subject on which the beginning and development of Christianity rests the authority of Jesus and of his apostles However obvious the relation between these two may seem to the reader the author points out that in contemporary theology little appreciation is shown of the fact of the Lord s supreme authority in the New Testament and in the Early Church and that much confusion exists in many modern theories concerning the history of primitive Christianity and of the formation of the New Testament Second only to this Mr Geldenhuys shows is the importance of understanding the authority of the apostles To bring out most sharply the authority of Jesus and his apostles the author allows the two primary sources of his subject the New Testament and other Early Church documents to speak for themselves as far as possible thus presenting a positive exposition of his subject The theories of Harnack Enslin Bousset Manson and many others who try to escape full acceptance of the New Testament or Early Christian presentation of the authority of the Lord and of His apostles come in for discussion and comment

**Allocating Authority** Joana Mendes, Ingo Venzke, 2018-01-11 The question of which European or international institution should exercise public authority is a highly contested one This new collection offers an innovative approach to answering this vexed question It argues that by viewing public authority as relative it allows for greater understanding of both its allocation and its legitimacy Furthermore it argues that relations between actors should reflect the comparative analysis of the legitimacy assets that each actor can bring into governance processes Put succinctly the volume illustrates that public authority is relative between actors and relative to specific legitimacy assets Drawing on the expertise of leading scholars in the field it offers a thought provoking and rigorous analysis of the long debated question of who should do what in European and international law
