enjoys using Windows 95 The book covers in a comical way such topics as The History of Computing How Computers Work
Software and even mundane topics such as internet shorthand The book starts out with what it calls A Brief History of
Computing from Cave Walls to Windows 95 where it describes how certain aspects of computing such as emoticons
hieroglyphics have existed for thousands of years As the book progresses it drifts off to some more sexual topics in a more
humorous than sexual manner It talks about everything from Quicken to chat rooms and everything in between It also has
some fictitious excerpts from chat room conversations The book ends with a fictional story from the second person viewpoint
of a married stay at home mom and her gradual acceptance of and proficiency at using the family PC especially surfing the
internet through the AOL online service Eventually she meets an English teacher online and the two develop feelings for one
