Meditation, The Complete Guide Patricia Monaghan, Eleanor G. Viereck, 1999 In this revised edition of *Maps to Ecstasy* Gabrielle Roth expands on the themes that have guided her ways of transforming daily life into sacred art. Her work in teaching movement has been described as a marriage of art and healing. Each chapter initiates readers into one of the five sacred powers necessary for survival and reveals the five life cycles that lead to enlightenment. The creative process brings readers in touch with these five sacred powers by freeing the body to experience the power of being, expressing the heart to experience the power of loving, emptying the mind to experience the power of seeing and embodying the spirit to experience the power of healing.

The Spiritual Leader's Guide to Self-Care Rochelle Melander, Harold Eppey, 2002-02-01 As spiritual guides, clergy and lay leaders alike often find themselves in need of direction about how to make changes in their personal life and ministry. Rarely, however, do they find a book that presents self-care as an integral part of being a spiritual leader. *The Spiritual Leader's Guide to Self-Care* gives readers the tools to discern God's intention for their lives and to be faithful to that vision through proper self-care. Arranged in 52 chapters, one for each week of the year, the guide addresses seven themes: Creating a Life Vision, Caring for Yourself at Work, Nurturing Your Relationships, Caring for Your Spirit and Body, Caring for Your Finances, Caring for Your Intellect, and Sustaining a Life Vision. Included are journal writing suggestions, personal reflection questions and activities, guidance for sharing the discovery process with another person, an activity for the coming week, and suggested further resources such as novels, videos, and Web sites.

Calm Energy Robert E. Thayer Ph.D., 2003-05-15 Obesity is reaching alarming proportions. In this insightful new approach to understanding why this is happening, acclaimed mood scientist Robert Thayer offers a new appreciation of the real cause: emotional eating. But this is not just emotional eating as previously known; rather, it is a new scientific analysis of exactly how different moods affect eating. He shows how unprecedented stress in society and epidemic levels of depression have led people to food as a poor means of managing mood. In this original approach, Thayer describes how people's daily energy and tension variations occur and how this knowledge helps overcome the urge to eat the wrong food and to achieve the goal of calm energy. Also in this

most up to date scientific analysis of exercise and mood he shows how physical activity is essential to psychological and physical health yet why it is resisted Thayer s work has been discussed in hundreds of magazine and newspaper articles and here he outlines in detail the cutting edge theories and scientific research findings that have generated this extensive media attention
