Handbook of Classroom Management Carolyn M. Evertson, Carol S. Weinstein, 2013-10-31 Classroom management is a topic of enduring concern for teachers administrators and the public It consistently ranks as the first or second most serious educational problem in the eyes of the general public and beginning teachers consistently rank it as their most pressing concern during their early teaching years Management problems continue to be a major cause of teacher burnout and job dissatisfaction Strangely despite this enduring concern on the part of educators and the public few researchers have chosen to focus on classroom management or to identify themselves with this critical field The Handbook of Classroom Management has four primary goals 1 to clarify the term classroom management 2 to demonstrate to scholars and practitioners that there is a distinct body of knowledge that directly addresses teachers managerial tasks 3 to bring together disparate lines of research and encourage conversations across different areas of inquiry and 4 to promote a vigorous agenda for future research in this area To this end 47 chapters have been organized into 10 sections each chapter written by a recognized expert in that area Cutting across the sections and chapters are the following themes First positive teacher student relationships are seen as the very core of effective classroom management Second classroom management is viewed as a social and moral curriculum Third external reward and punishment strategies are not seen as optimal for promoting academic and social emotional growth and self regulated behavior Fourth to create orderly productive environments teachers must take into account student characteristics such as age developmental level race ethnicity cultural background

socioeconomic status and ableness Like other research handbooks the Handbook of Classroom Management provides an indispensable reference volume for scholars teacher educators in service practitioners and the academic libraries serving these audiences It is also appropriate for graduate courses wholly or partly devoted to the study of classroom management

Classroom Communication and Diversity Robert G. Powell, Dana L. Powell, 2015-09-16 Classroom Communication and Diversity provides a useful framework for helping both new and experienced teachers and instructors navigate the communication challenges in today's diverse classroom It encourages teachers to reflect on how their personal cultures influence their expectations regarding classroom communication This textbook is distinctive in its distillation of research from numerous sources to provide the best viewpoint and systems for focusing on the needs of the individual learner Dana L. Powell and Robert G. Powell draw on research in both the communication and education disciplines and provide useful strategies for improving teaching practices alongside theoretical models regarding diversity in the classroom Much of the information found in this text is also inspired by the authors' direct experience in schools and from the experience they have gleaned from other first-line instructors as well as from parents and children Among the many updates to this Third Edition are Expanded coverage of students with diverse needs Discussion on working effectively with parents Coverage of cultural influences and the impact of race and ethnicity on disciplinary actions Examination of the role of social media and its impact on instructional communication The increase of educational technology use Teachers and scholars in the communication and education fields will find this text practical and valuable for their teaching efforts and it is appropriate for instructional communication courses in both disciplines

Culturally Responsive Pedagogy Sheryl V. Taylor, Donna M. Sobel, 2011 Views culturally responsive teaching as a contextual and situational process for both teachers and students the students including those who are from a diversity of languages cultures racial ethnic backgrounds religions economic resources interests abilities and life experiences

School Discipline and Self-Discipline George G. Bear, 2010-06-03 How can schools create safe well supervised classroom environments while also teaching students skills for managing their behavior on their own This invaluable guide presents a framework for achieving both of these crucial goals It shows how to balance external reinforcements such as positive behavior supports with social emotional learning interventions Evidence based techniques are provided for targeting the cognitive and emotional processes that underlie self discipline both in classroom instruction and when correcting problem behavior Describing how to weave the techniques together into a comprehensive schoolwide disciplinary approach the book includes over a dozen reproducible forms checklists and assessment tools The large size format facilitates photocopying This book is in The Guilford Practical Intervention in the Schools Series edited by Sandra M. Chafouleas

Educator Or Bully? Marie Menna Pagliaro, 2011-08-25 Educator or Bully offers a comprehensive approach to classroom management for both novice and veteran teachers who are interested in examining their current classroom management performance especially with respect to how it reflects the characteristics of the 21st century classroom

Practices presented are based on sound educational theory There is an emphasis on the responsibility the student should have in successful classroom management Part I covers the guidelines that deal with everyday classroom management interactions with a focus on contemporary approaches These chapters discuss preventive measures followed by reactive procedures that teachers can implement once problems have occurred Punishment and logical consequences are distinguished and educative techniques in handling misbehavior are demonstrated Part I concludes with a thorough consideration regarding how to organize and maintain the physical classroom environment and how to prepare for the beginning of school Part II reviews students through teacher centered strategies systems to deal with diverse classroom needs These strategies are tailored so that the least intrusive to those in which the teacher has more control reflect 21st century attributes

Educating for Equity and Excellence Geneva Gay,2023 In this collection of articles Geneva Gay invites readers to make educational equity and excellence a reality for all students P 20 not just an ethic or an ideal Teaching narratives from the personal experiences of the author illustrate the importance of ideology ethics personal commitment and praxis on the part of educators

An Educational Psychology Textbook Equity,2014-10-10 The first half of the book focuses on broader questions and principles taken from psychology per se and the second half focuses on somewhat more practical issues of teaching All parts of the book draw on research theory and practical wisdom wherever appropriate Chapter 2 is about learning theory and Chapter 3 is about development Chapter 4 is about several forms of student diversity and Chapter 5 is about students with disabilities Chapter 6 is about motivation Following these somewhat more basic psychological chapters we turn to several lasting challenges of classroom life challenges that seem to be an intrinsic part of the job Chapter 7 offers ideas about classroom management Chapter 8 ideas about communicating with students Chapter 9 about ways to assist students complex forms of thinking and Chapter 10 about planning instruction systematically The book closes with two chapters about assessment of learning

Encyclopedia of the Sciences of Learning Norbert M. Seel,2011-10-05 Over the past century educational psychologists and researchers have posited many theories to explain how individuals learn i e how they acquire organize and deploy knowledge and skills The 20th century can be considered the century of psychology on learning and related fields of interest such as motivation cognition metacognition etc and it is fascinating to see the various mainstreams of learning remembered and forgotten over the 20th century and note that basic assumptions of early theories survived several paradigm shifts of psychology and epistemology Beyond folk psychology and its na ve theories of learning psychological learning theories can be grouped into some basic categories such as behaviorist learning theories connectionist learning theories cognitive learning theories constructivist learning theories and social learning theories Learning theories are not limited to psychology and related fields of interest but rather we can find the topic of learning in various disciplines such as philosophy and epistemology education information science biology and as a result of the emergence of computer technologies especially also in the field of computer sciences and artificial intelligence

As a consequence machine learning struck a chord in the 1980s and became an important field of the learning sciences in general As the learning sciences became more specialized and complex the various fields of interest were widely spread and separated from each other as a consequence even presently there is no comprehensive overview of the sciences of learning or the central theoretical concepts and vocabulary on which researchers rely The Encyclopedia of the Sciences of Learning provides an up to date broad and authoritative coverage of the specific terms mostly used in the sciences of learning and its related fields including relevant areas of instruction pedagogy cognitive sciences and especially machine learning and knowledge engineering This modern compendium will be an indispensable source of information for scientists educators engineers and technical staff active in all fields of learning More specifically the Encyclopedia provides fast access to the most relevant theoretical terms provides up to date broad and authoritative coverage of the most important theories within the various fields of the learning sciences and adjacent sciences and communication technologies supplies clear and precise explanations of the theoretical terms cross references to related entries and up to date references to important research and publications The Encyclopedia also contains biographical entries of individuals who have substantially contributed to the sciences of learning the entries are written by a distinguished panel of researchers in the various fields of the learning sciences

Positive Learning Environments John De Nobile, Gordon Lyons (Lecturer and researcher), Michael Arthur-Kelly, 2017-04-05 How do you create a learning environment that's productive one where students are engaged learning and happy And how do you ensure that inappropriate behaviours are kept to a minimum This exciting new text introduces the key concepts you need to know to create and maintain your classroom as a positive learning environment It begins by introducing four essential components that are the cornerstones of creating a positive productive learning environment These positive practices will set you on the pathway to success and help you establish classrooms that recognise and encourage appropriate behaviours while reducing the probability of inappropriate behaviours It then examines in turn each of the four main groups of evidence based approaches to managing student behaviour behavioural cognitive behavioural psychoeducational and social justice approaches For each it discusses the theories that inform them their practical applications for fostering appropriate behaviours and also when and how to use them to proactively intervene if necessary By the end you will be empowered to select appropriate theories approaches and strategies and bring these together to develop your individualised classroom management plan one that suits your own theoretical beliefs professional philosophy and teaching style
