Cambodia International Monetary Fund. Fiscal Affairs Dept.,2018-11-07 This FAD mission reviewed recent progress to improve tax administration

and identified areas of priority tax administration modernization for 2019-23. The MEF has been implementing the RMS, a major component of which is the strengthening of the administration of the GDT. As the RMS ends in 2018, the MEF is now developing the next phase of reforms to strengthen the revenue system of Cambodia over the period 2019 to 2023. The GDT has made significant progress with implementing the RMS measures under its responsibility and achieved extremely positive revenue growth and collections. The GDT has completed 71 out of the 86 RMS tax administration measures; the remaining 15 are under active progress. Since 2012, the GDT has routinely exceeded its revenue targets and year-on-year revenue growth has far exceeded the annual levels of economic growth. Cambodia's 2017 tax-to-GDP ratio of 17.2 percent is now comparable with many regional countries.

Software Configuration Management Handbook, Third Edition Alexis Leon, 2015-02-01 Software configuration management (SCM) is one of the scientific tools that is aimed to bring control to the software development process. This new resource is a complete guide to implementing, operating, and maintaining a successful SCM system for software development. Project managers, system designers, and software developers are presented with not only the basics of SCM but also the different phases in the software development lifecycle and how SCM plays a role in each phase. The factors that should be considered and the pitfalls that should be avoided while designing the SCM system and SCM plan are also discussed. In addition, this third edition is updated to include cloud computing and on-demand systems. This book does not rely on one specific tool or standard for explaining the SCM concepts and techniques. In fact, it gives readers enough information about SCM, the mechanics of SCM, and SCM implementation so that they can successfully implement a SCM system.
