Clinical Research In Communicative Disorders Principles And Strategies:

Clinical Research in Communication Disorders M. N. Hegde, Anthony P. Salvatore, 2019-03-06 This thoroughly updated fourth edition of *Clinical Research in Communication Disorders Principles and Strategies* remains an instrumental resource for courses on research methods and design in communication disorders. The book is separated into three key sections: science and the scientific methods, clinical research designs and doing reporting and evaluating research. Together these sections provide thorough coverage of both the single subject and group design strategies along with issues of measurement philosophy of science, ethics of research and planning, conducting and reporting research. Instructors and students in communication sciences and disorders will appreciate the text's comprehensive coverage of scientific methods, group and single subject research designs, report writing and ethics of research in a single source. New to the Fourth Edition: New coauthor Anthony P. Salvatore, PhD; a new chapter on statistical analysis of research data including several statistical techniques for single subject research data; meta-analysis of both group and single subject studies; updated criteria for visual analysis of single subject research data; new sections on translational research, qualitative research and mixed methods research; descriptions of additional research designs not included in the previous edition, e.g., the regression discontinuity design; updated information on research ethics and review of fraudulent biomedical research; web-based sources that monitor research fraud and recalled studies; updated and expanded references throughout. Key Features: Chapter outlines open each chapter and provide a summary of the key topics; chapter summaries recap key points in an easy-to-read bulleted format; end-of-chapter study guides allow readers to test their knowledge; bolded key terms throughout. Disclaimer: Please note that ancillary content such as documents, audio and video etc. may not be included as published in the original print version of this book.

Clinical Research in Communicative Disorders Mahabalagiri N. Hegde, 1987 Clinical Research in Communicative Disorders Mahabalagiri N. Hegde, 2003 A revised comprehensive textbook 1st ed 1987 for a course on research methods and designs in communicative disorders representing both the single subject and group design strategies along with issues of measurement philosophy of science, ethics of research and planning, conducting and reporting research. Annotation copyright by Book News Inc, Portland, OR.

Introduction to Clinical Research in Communication Disorders Mary H. Pannbacker, Grace Middleton, 1994 **Clinical Research Methods in Speech-Language Pathology and Audiology, Fourth Edition** David L. Irwin, Jeremy J. Donai, 2024-06-26 With a new chapter on evaluating research articles, the fourth edition of *Clinical Research Methods in Speech Language Pathology and Audiology* continues to be an essential resource for graduate students and clinicians seeking to understand the principles and methodologies involved with clinical research. As the demand for evidence-based practice continues to rise, understanding how to conduct and evaluate research becomes increasingly important in ensuring quality care and professional accountability. This text emphasizes how to effectively apply research to clinical practice and decision-making processes. Readers will also gain knowledge of the

significance of research ethics and the ethical considerations involved With the utilization of discussion materials this text will facilitate learning and critical thinking among students as they engage with the material This edition includes information on how to critically review both quantitative and qualitative articles Current trends and updated examples from speech pathology and audiology literature will assist with real world research situations New to the Fourth Edition New co author Jeremy J Donai AuD PhD providing a fresh perspective New chapter on critically evaluating quantitative and qualitative research articles Examples regarding integration of citations into a literature review Key Features Chapters begin with an outline of covered topics and learning objectives End of chapter discussion questions aid students in applying concepts A comprehensive glossary allows students to easily find and define important terms Numerous references throughout including many ASHA and AAA Codes of Ethics
