have the choice to align with this intelligence or continue to operate within old structures in government business education healthcare and even in our personal lives We often cling to hierarchical models which no longer work for us Those at the top of the ladder are fearful of what might happen if they relinquish control Those at the bottom surrender responsibility to those above Many of us easily get stuck in a pattern of blaming the system for everything that goes wrong But the truth is we are ALL the system Whether you are a seasoned CEO or an entry level employee YOU have the ability and the responsibility to engage with the system as a living being composed of all those involved

In Becoming What is Changing Universal Principles for Transforming Self Systems Organizations Volume 1 Exposition author Veerle de Bock integrates more than two decades of experience within the healthcare industry along with years of work as a teacher supervisor and process facilitator to bring you a candid and refreshing look at how we can reinvent the way we operate within our organizations and allow our systems to become living beings with a capacity for self organization

In Becoming What is Changing volume 1 you ll find dozens of valuable anecdotal examples of real life situations combined with a wealth of practical concepts skills and tools you can apply in any scenario such as Your full potential Fresh perspectives on discovering who you really are and how to bring your whole self into your organization Dynamic facilitation A new way of meeting and listening that can help your team find solutions to problems you thought were impossible to overcome Life pulse Understanding the natural life cycle of organizations and ideas so you can identify the right time to reflect and the right time to ACT Witness Ask Experience A reflective tool to help you and your organization discover where you are stuck so you can move forward 100% Responsibility Learning how to take responsibility for what is happening in the moment including the responsibility for being open and understood Plus many others A Call to Action to Idealists Change Makers and Social Reformers If we simply continue to complain about the old system we are only colluding with it But when we are ready to let go of blame and judgement and take full responsibility for whatever happens to us and around us we can attune with the change that is already happening in the Universe and we can achieve truly great things in our organizations our lives and the world at large So are you ready Then **Becoming What is Changing** is THE book for you [The Devil Deal](#) Austin Lineback, **LOVE AND SURRENDER** Juan DeJesus, 2021-11-04
