

## Ants!

Name: \_\_\_\_\_

Ants can lift something that is 20 times as heavy as they are. Ants live in groups called colonies. They are run by a queen ant. She tells everyone what to do. Queens can live for many years and have many babies. Ants do not have ears. They feel rumbles in the grounds with their feet. Ants breathe air with their skin.

Ants leave a trail that you can not see for other ants. Ants eat different types of food. Some ants like sugary food. Other ants like oily foods.

There are three types of ants in a colony. The queen is in charge and she lays eggs. There are male ants that have wings. Finally, there are worker ants. These workers do many jobs. Some worker ants take care of the eggs and babies. Some workers are soldiers. They protect the colony and gather food.

Ants live in the ground or in wood near food.
