Complementary Therapies In Rehabilitation Complementary Therapies In Rehabilitation:

Complementary Therapies in Rehabilitation Carol M. Davis, 1997 This book examines the recent paradigm shift taking place in rehabilitation Carol M Davis EdD PT takes a careful look at concepts such as therapeutic presence holism energy and the mind body connection and how they can be used to enhance current rehabilitation practice Dr Davis and her contributors help to clarify the changes taking place regarding how health and illness are viewed and the choices professionals are making in the treatment decisions for their patients Traditional methods of treatment are being re examined as more holistic approaches to healthcare offer alternative options These complementary methods are introduced and described by experienced professionals who have successfully integrated these techniques into their practice The book addresses the development of each method its application and approaches as well as providing examples for each Developed for the student and the health professional the book is invaluable in helping to bridge the gap between complementary and traditional medicine

Complementary Therapies in Rehabilitation Carol M. Davis, 2009 For over a decade Dr Carol Davis opened the minds of health care professionals worldwide to the idea of complementary therapies in rehabilitation The pages of this renowned text covered evidence for efficacy in therapy prevention and wellness unlike any other text it is the first of its kind published in the United States As science continues to evolve and change so does the expertise of Dr Davis and the experienced therapists who join together in writing the various chapters in the Third Edition of *Complementary Therapies in Rehabilitation* This evidence based text includes an insightful review profiling the latest peer reviewed research of holistic approaches commonly used in rehabilitation Students and practitioners are now able to evaluate the efficacy of these approaches from the evidence that is reported New to the Third Edition The latest summary of findings in energy medicine and bio energetics applied to rehabilitation therapies Updates on randomized control trials Reviews of evidence of efficiency Energy techniques as a way of returning healing to health care Professionals will also be excited to have at their hands a new chapter describing the latest discoveries in the science that helps explain how these therapies may work It appears that the future of health care will be based on this unfolding science of energy medicine and vibration Professor Davis reads the most updated reports of the latest quantum science and then translates this information into meaningful ideas that relate to what therapists observe every day with patients in their case *Complementary Therapies in Rehabilitation* Third Edition is the perfect text for all rehabilitation professionals looking to deepen their understanding of various holistic modalities that are making a difference in rehabilitation especially with patients who have hit the wall with the standard treatments that based on mechanistic science This text provides the latest knowledge and description of rehabilitation professionals experience with these therapies and reports the latest peer reviewed evidence for efficiency in therapy prevention and wellness

Complementary Therapies for Physical Therapy Judith E. Deutsch, Ellen Zambo Anderson, 2008-01-01 As CAM becomes widely accepted rehabilitation professionals are incorporating CAM concepts and techniques into their own practice

This book will help them to gain an understanding of the field and to acquire specific knowledge and skills which they can apply to the treatment of movement related disorders *Integrative Therapies in Rehabilitation* Carol M. Davis,2016-06-01

Integrative Therapies in Rehabilitation Carol M. Davis,2024-06-01 For more than 20 years Integrative Therapies in Rehabilitation continues to be a most researched resource on complementary and alternative therapies in rehabilitation This renowned text now in its Fourth Edition relates the updated scientific evidence and the clinical efficacy of integrating what have now become well known complementary and alternative therapies in rehabilitation to successfully improve patient outcomes This text has been developed to accompany university courses in complementary and alternative therapies as a reference manual for clinical practices and as a resource for those interested in the science behind holistic therapies Holistic therapies are those therapies not commonly found in allopathic medicine that are intended to stimulate a therapeutic response from both the body neuromusculoskeletal and cardiopulmonary systems and the mind Integrative Therapies in Rehabilitation Fourth Edition by Dr Carol M Davis is particularly designed for those health professionals who want to understand the scientific foundation and peer reviewed research supporting complementary and alternative therapies The Fourth Edition is divided into two parts The beginning chapters describe the latest cellular biology science and explain the theories put forth on the overall mechanisms of action of the effect of these various therapies on the soft tissue fascia and nervous systems The first part also chronicles the advancement of scientific research in the various therapies since the 1980 s to explain in cellular physiology terms the outcomes observed by using a number of holistic therapies The second part presents various therapies commonly integrated with allopathic therapies in rehabilitation body work therapies mind body therapies and energy work therapies The text describes each therapy with a history cellular mechanism of action and an up dated reference section of the evidence of efficacy for the therapy as reported in the literature often concluding with a case example Integrative Therapies in Rehabilitation Fourth Edition will be the go to resource for health professionals to understand the scientific evidence and efficacy of complementary and alternative therapies for rehabilitation and improving patient outcomes **Complementary Therapies for Physical Therapy** Judith E.
