Completing Piagets Project Transpersonal Philosophy And The Future Of Psychology:

Completing Piaget's Project Edward J. Dale, 2014-09-01 Drawing on rare sources many of which have not previously been translated into English the view of Piaget and his work that emerges in this book is very different from the atheistic view of Piaget that is commonly held in psychology and transpersonal psychology In both his early and later career Piaget held to an evolutionary view of spirituality reminiscent of the work of Hegel and Bergson The spiritual future could be precursed by the individual in this life through the experience of Immanence Piaget underwent a spiritual emergency in adolescence reported in early autobiographical writing in which he encountered an array of experiences described in Eastern and Western mystical canons For reasons discussed in this book Piaget attempted to conceal his spiritual inclinations while tacitly confirming them in informal exchanges This book not only describes the spiritual aspects of Piaget's life and work it also builds bridges to both the contemporary transpersonal project and to contemporary psychology by extending Piaget's own ideas to shed new light on transpersonal psychology and transpersonal philosophy and on the future orientation of general psychology The book validates the transpersonal project by showing its concerns to be germane to psychology's most influential figure The reader will learn as much about the history present and future of transpersonal thought as they do about Piaget

Transpersonal Psychology and Science Douglas A. MacDonald, Manuel Almendro, 2021-10-28 Founded in the 1960s transpersonal psychology is a subdiscipline of psychology that has been dedicated to the study of exceptional human experiences and functioning inclusive of ancient and indigenous spiritual and mystical traditions While initially holding tremendous promise to expand psychological science and practice beyond the purview of conventional psychology the field has encountered a variety of challenges that its advocates have recognized as compromising its progress Among the most pervasive of these challenges has been controversy and disagreement regarding the place of science in transpersonal psychological inquiry and practice Even though some efforts have been made by scholars in the field to address the challenges these efforts have been largely piecemeal in nature involving articles or chapters in books that express the viewpoints of individual scholars without a fulsome consideration of multiple perspectives of people throughout the world who identify as members of the subdiscipline This book is the first in the history of the field to bring together the voices of respected members of the transpersonal psychological community to specifically discuss the relation of transpersonal psychology to science in order to find ways of helping the subdiscipline move forward in a productive manner This volume includes invited chapters from a broad array of international experts in transpersonal psychology who proffer interesting and sometimes conflicting perspectives regarding how science fits within the subdiscipline The book ends with a chapter written by the editors that summarizes and highlights the main points of issue shared by the expert contributors and offers concrete recommendations for how transpersonal psychology can improve itself as a field of inquiry and professional practice

Fractal Epistemology for a Scientific Psychology Terry Marks-Tarlow, Yakov Shapiro, Katthe P. Wolf, Harris L.

Friedman,2020-01-06 Fractal dynamics provide an unparalleled tool for understanding the evolution of natural complexity throughout physical biological and psychological realms This book s conceptual framework helps to reconcile several persistent dichotomies in the natural sciences including mind brain linear nonlinear subjective objective and even personal transpersonal processes A fractal approach is especially useful when applied to recursive processes of consciousness both within their ordinary and anomalous manifestations This novel way to study the interconnection of seemingly divided wholes encompasses multiple dimensions of experience and being It brings together experts in diverse fields neuropsychologists psychiatrists physicists physiologists psychoanalysts mathematicians and professors of religion and music composition to demonstrate the value of fractals as model method and metaphor within psychology and related social and physical sciences The result is a new perspective for understanding what has often been dismissed as too subjective idiosyncratic and ineffably beyond the scope of science bringing these areas back into a natural scientific framework Participation and the Mystery

Jorge N. Ferrer,2017-04-12 A groundbreaking and hopeful new look at contemporary spirituality transpersonal psychology integral education and religious diversity and pluralism Participation and the Mystery is both an introduction to and expansion of Jorge N Ferrer s groundbreaking work on participatory spirituality which holds that human beings are active cocreators of spiritual phenomena worlds and even ultimates After examining the impact of his work since the publication of Revisioning Transpersonal Theory Ferrer discusses the relationship between science and transpersonal psychology the nature of a fully embodied spirituality and the features of integral spiritual practice The book also introduces a participatory philosophy of education and applies it to the academic teaching of mysticism and a novel approach to embodied spiritual inquiry Critically engaging the influential work of Stanislav Grof Ken Wilber and A H Almaas Ferrer concludes with an original solution to the problem of religious pluralism that affirms the ontological richness of religious worlds while avoiding the extremes of perennialism and contextualism offering a hopeful vision for the future of world religion Participation and the Mystery is an invaluable resource to anyone seeking to deepen their understanding of participatory approaches to transpersonal psychology integral and contemplative education contemporary spirituality and religious studies In Participation and the Mystery we are given the opportunity to dive into the engaging provocative and stunningly erudite thought of Jorge N Ferrer arguably one of the premier transpersonal theorists of our time Building on the key essays written after the publication of his seminal work Revisioning Transpersonal Theory Ferrer shows us how his compelling and extremely fertile participatory model can be applied with intriguing and rewarding results to multiple highly distinct fields of discourse Read this book if you want your worldview to be both challenged and enriched G William Barnard author of Living Consciousness The Metaphysical Vision of Henri Bergson Ferrer is a leading figure in transpersonal psychology His participatory perspective explains both the deep commonalities and the creative diversity of spiritual traditions It provides a way to understand the general phenomenon of spirituality without falling prey to ideological dogmatism or the tendency to

privilege one's own spiritual tradition or practice over others Ferrer's work deserves to be widely read Michael Washburn author of *Transpersonal Psychology in Psychoanalytic Perspective* This is an important collection of essays from one of the leading contemporary thinkers in transpersonal studies Ferrer's participatory approach represents the most significant development in transpersonal theory and practice to have emerged this century and this book is the ideal introduction to Ferrer's work It will become required reading for all students of transpersonal psychology as well as for anyone seeking to deepen their understanding of transformational practice transpersonal education spirituality and religion Michael Daniels author of *Shadow Self Spirit Essays in Transpersonal Psychology* Rich and thought provoking this book ranges widely through Ferrer's reflections on the participatory worldview in relation to psychology education and religion Andrew O Fort Texas Christian University

Both One and Many Oliver Griebel, 2024-04-16 Meister Eckhart might have liked it Indeed many one thinking is the idea that there is the one ultimate origin coherence spirit of it all but not without a multitude and diversity emerging within which is the evolving universe with planets like Earth with its biosphere and humankind with you and me living in it The Many One is thought of as the whole of the cosmos complementing and entangled with all its parts as beings inside Being and Being inside beings as the Creator and his co-creating creatures The both one and many idea takes a strong stance against any ultimate either/or reduction against isms of all sorts Being unity and plurality and duality all at once the Many One is neither monistic nor pluralistic nor dualistic in any way Inside this broad frame it is open for many specific approaches not least those represented in this volume which are cosmic holism cultural spiritual evolution thought Higher We integral thinking the Metaphysics of Adjacency panentheism process theology and transpersonal participatory thinking However the many one idea also chimes in with approaches not sampled here like Roy Bhaskar's Critical Realism Edgar Morin's Complex Thought or metamodernism

The Routledge Handbook of Research Methods in Spirituality and Contemplative Studies Bernadette Flanagan, Kerri Clough, 2024-09-03 The Routledge Handbook of Research Methods in Spirituality and Contemplative Studies provides the first authoritative overview of methodology in this growing field Against the background of the pandemic and other global challenges spirituality is expanding as an agreed term with which to discuss the efforts people make to be fully present to deeper invisible dimensions of their personal identity and external reality but until now there have been few resources exploring the different methodological approaches researchers take This book explores the primary methodologies emerging First Person Second Person and Third Person and provides a systematisation of spirituality research in applied contexts for the first time Comprising 33 chapters by a team of international contributors the book is divided into seven parts Foundations Approaches to Contemplative Research Contemplative Research in Education Contemplative Research in Work and Leadership Contemplative Research in Science Health and Healing Contemplative Research in Social Sciences Contemplative Research and the Way Forward The Handbook provides readers practitioners and policymakers with methods and approaches which can facilitate a spiritual and

contemplative stance in research activities It is an essential resource for researchers and students of Religion Spirituality and Research Methods Being Spiritual but Not Religious William B. Parsons,2018-05-30 In its most general sense the term Spiritual but Not Religious denotes those who on the one hand are disillusioned with traditional institutional religion and on the other hand feel that those same traditions contain deep wisdom about the human condition This edited collection speaks to what national surveys agree is a growing social phenomenon referred to as the Spiritual but Not Religious Movement SBNRM Each essay of the volume engages the past present and future s of the SBNRM Their collective contribution is analytic descriptive and prescriptive taking stock of not only the various analyses of the SBNRM to date but also the establishment of a new ground upon which the continued academic discussion can take place This volume is a watershed in the growing academic and public interest in the SBNRM As such it will vital reading for any academic involved in Religious Studies Spirituality and Sociology The Intersubjective Turn Olen Gunnlaugson,Charles Scott,Heesoon Bai,Edward W. Sarath,2017-10-11 Examines key theoretical aspects of the emerging field of second person contemplative education A first of its kind this book maps out current academic approaches in higher education to second person contemplative education which addresses contemplative experience from an intersubjective perspective Until recently contemplative studies has emphasized a predominantly first person standpoint but the expansion and embrace of second person methods provides a distinctive learning context in which collective wisdom and shared learning can begin to emerge from dialogue among students and groups in the classroom The contributors to this volume leading researchers and practitioners from a variety of institutions and departments examine the theoretical and philosophical foundations of second person contemplative approaches to instruction pedagogy and curricula across various scholarly disciplines **The Labyrinth of Ayahuasca** Manuel Almendro,2023-05-25 This book offers unique insights Teachings from the Ash ninka Mazatec Cocama and the Navajo are recounted which the author had the fortune to receive while spending extended periods with them A unique and first hand perspective of the world of Traditional Indigenous Medicine TIM and ayahuasca and its complex world of plants purging and isolation is presented The importance of spirituality and the need to deal with our past traumas are explored The most representative authors in fields related to TIM and psychedelics are reviewed and so are others relatively unknown but very relevant Innovative procedures in psychology and medicine are assessed The School of Psychotherapy Ox game is also presented The book analyses the abuse of sacred substances and psychedelic culture potential positive discoveries and disturbing contradictions and dangers This book would appeal to readers ranging from the general public interested in the indigenous worlds psychology and spirituality to more specialized audiences in the fields of anthropology psychology medical doctors and health professionals in general Bulletin of the Atomic Scientists ,1972-10 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world
