Comprehensive Teacher Induction Systems For Early Career Learning:

Comprehensive Teacher Induction E.D. Britton,L. Paine,S. Raizen,2003-05-31 Based on a three year study the authors describe how comprehensive teacher induction systems can both provide teacher support and promote learning more about how to teach This book calls for re thinking what teacher induction is about whom it should serve what the curriculum of induction should be and the policies programs and practices needed to deliver it *Comprehensive Teacher Induction* E. D. Britton,L. Paine,2014-01-15 Comprehensive Teacher Induction E.D. Britton,L. Paine,S. Raizen,2011-06-28 Based on a three year study the authors describe how comprehensive teacher induction systems can both provide teacher support and promote learning more about how to teach This book calls for re thinking what teacher induction is about whom it should serve what the curriculum of induction should be and the policies programs and practices needed to deliver it *Mentoring in Education* Cedric Cullingford,2016-04-22 Mentoring has become a hot topic in a number of professional spheres in recent years but its most important and longest established location is in education However this volume is the first wide ranging academic critique of the concept and its application Offering both a critical and a practical stance the authors examine the historical and cultural aspects of mentoring and the motivations behind it They also explore the effects on the individuals involved and on the system and examine the different approaches to the idea and implementation of mentoring Drawing contributions from Europe the USA and the Middle East this work considers a wide range of empirical studies of mentoring from those countries that have invested in it including case studies and analyses of current practice The book makes a major contribution not only on account of the international perspective it provides but also through analysis of cases in order to establish the difference between the much vaunted theoretical advantages promoted by policy makers and the everyday realities and complexities that arise in a scheme entirely dependent on personal relationships Teacher Mentoring and Induction Hal Portner,2005-04-27 In this groundbreaking work Harry K Wong Laura Lipton Bruce Wellman and other top names in the field examine how successful mentoring and induction programs are developed and demonstrate how they can be replicated **The Professional Education and Development of Teachers of Mathematics** Ruhama Even,Deborah Loewenberg Ball,2008-11-16 The premise of the 15th ICMI Study is that teachers are key to students opportunities to learn mathematics What teachers of mathematics know care about and do is a product of their experiences and socialization together with the impact of their professional education The Professional Education and Development of Teachers of Mathematics assembles important new international work development research theory and practice concerning the professional education of teachers of mathematics As it examines critical areas to reveal what is known and what significant questions and problems warrant collective attention the volume also contributes to the strengthening of the international community of mathematics educators The Professional Education and Development of Teachers of Mathematics is of interest to the mathematics education community as well as to other researchers practitioners and policy makers concerned with the

professional education of teachers **Equity in Discourse for Mathematics Education** Beth Herbel-Eisenmann, Jeffrey Choppin, David Wagner, David Pimm, 2011-12-09 This book explores the connection between the ways people speak in mathematics classrooms and their opportunities to learn mathematics The words spoken heard written and read in mathematics classrooms shape students sense of what mathematics is and of what people can do with mathematics The authors employ multiple perspectives to consider the means for transformative action with respect to increasing opportunities for traditionally marginalized students to form mathematical identities that resonate with their cultural social linguistic and political beings **Past, Present, and Future Research on Teacher Induction** Jian Wang, Sandra J. Odell, Renee T. Clift, 2010-07-16 This anthology on teacher induction research is intended for researchers policy makers and practitioners in the field of teacher induction both nationally and internationally This book is the final and major project of the Association of Teacher Educators ATE Commission on Teacher Induction and Mentoring Its importance is derived from three sources 1 careful conceptualization of teacher induction from historical methodological and international perspectives 2 systematic reviews of research literature relevant to various aspects of teacher induction including its social cultural and political contexts program components and forms and the range of its effects 3 substantial empirical studies on the important issues of teacher induction with different kinds of methodologies that exemplify future directions and approaches to the research in teacher induction The content of the book has direct implications for ATE s membership since part of the ATE mission is to provide opportunities for personal and professional growth of the Association membership whether members are researchers policy makers or practitioners in teacher learning and or teacher induction **The continuum of secondary science teacher preparation** , 2019-02-18 The mission of the Knowles Science Teaching Foundation KSTF to increase the quantity of high quality high school science and mathematics teachers in United States High Schools calls for a deeper understanding of what it takes to prepare and support successful teachers On September 21 2006 KSTF convened a group of 41 individuals with a broad range of perspectives and expertise to address three essential questions with regard to secondary science teacher preparation What do we know what do we need to find out and what research will help us fill in the gaps Participants were intentionally selected from a diverse cross section of the education community and included teachers educational researchers teacher educators policy specialists and scientists The 41 participants formed 12 working groups and spent two and a half days addressing the following aspects of teacher preparation recruitment and retention models of secondary science teacher preparation pedagogic preparation including field based experiences methods courses and preparing teachers for diverse populations content preparation in biology chemistry Earth science and physics as well as the nature of science in general induction mentoring Each working group was tasked with synthesizing their discussions and conclusions for the entire group of conference participants and in a written document This volume represents the final outcome of that conference 12 chapters that reflect the work of 40 dedicated scholars and practitioners who share a deep

commitment to the pursuit of excellence in the preparation of secondary science teachers *Teacher Induction Policy in Global Contexts* Jian Wang, 2024-07-01 Teacher induction is becoming increasingly important focus of education policy developed to help beginning teachers develop professionally and stay in teaching work force as a way to meet the needs of global economy and social transformation for teaching quality and student learning in many countries Policy borrowing is a common practice in teacher induction across different countries Such a policy borrowing allow policymakers in particular countries to access different options and choices in their policy development instead of trial and error However it is often done without a careful policy analysis as its base especially the analysis that focuses on the problems the borrowed policy intends to solve social political and educational contexts in which it develops explicit and implicit conceptual assumptions underlying it its implementation and associated challenges and its intended and unintended impacts Without such an analysis as its base the implementations of policy borrowed from other countries can causes unnecessary financial human resource and emotional costs in its context even if the policy prove to be successful in the other place This book serves for such needs of policy analysis in the field of teacher induction It starts with the book editor s overview of the book and its intention Then there are 16 chapters each is written by a distinguished scholar or a policy analyst from a particular country that analyzes the focuses contexts assumptions implementation challenges and consequences of a specific teacher induction policy developed in their home country and then raise important research questions emerging from their analysis The book is expected to attract readers including scholars policy makers practitioners and graduate students in different countries who have interests in teacher induction research policy and practice
