Roger Hartley,1992 **Barriers and Bridges** Heidrun Jung,Commission on Educational Technology and Language Learning,1994 The papers that make up this collection were either presented at the CETaLL Commission on Educational Technology and Language Learning Colloquium The Autonomous Learner and the Media held as part of the 10th AILA World Congress in Amsterdam August 8 15 1993 or were presented in other sections at the same congress Not only do they all share the common theme of exploring how media technology can be used to enhance language learning and teaching but more than that they relate the excitement of breaking down barriers and building bridges with the help of both old and new technology Papers from Austria Finland Germany Japan Thailand Britain and the United States cover a wide range of topics from the latest hi tech multi media project to the humble radio with its potential for interactivity

Centering Humanism in STEM Education Bryan Dewsbury,Susannah McGowan,Sheila S. Jaswal ,Desiree Forsythe,2024-09-24 Research demonstrates that STEM disciplines perpetuate a history of exclusion particularly for students with marginalized identities This poses problems particularly when science permeates every aspect of contemporary American life Institutions repeated failures to disrupt systemic oppression in STEM has led to a mostly white cisgender and male scientific workforce replete with implicit and or explicit biases Education holds one pathway

to disrupt systemic linkages of STEM oppression from society to the classroom Maintaining views on science as inherently objective isolates it from the world in which it is performed STEM education must move beyond the transactional approaches to transformative environments manifesting respect for students social and educational capital We must create a STEM environment in which students with marginalized identities feel respected listened to and valued We must assist students in understanding how their positionality privilege and power both historically and currently impacts their meaning making and understanding of STEM
