war austerity in 1957 Alfa Romeo decided it was time to re enter the market for luxury executive class cars with a new range designed for the growing number and prosperity of potential customers Thus the first models in the new 2000 series emerged followed by the 2600 series in 1962 That they were not hugely successful although some 18 540 were manufactured between 1957 and 1966 can be attributed to a number of factors principally cost Largely ignored for many years these cars

are now recognized as a significant element in Alfa Romeo's history and this book is a valuable record of their story. Richly illustrated with over 200 colour and black and white photographs, it describes the early Berlina saloon, Spider convertible and Sprint coupe and their development into the 2600 series. It was a major leap for the company but a very successful one as well. Despite controversy over its looks and some initial teething problems, it became a worthy successor to the much loved original Range Rover. Second Generation The Complete Story draws on the memories of designers and engineers as well as on a wide variety of factory sources to provide the most authoritative history of the model yet. The book covers the full development history, the changes during eight years of production, Range Rovers for the North American market, full technical specifications and finally Range Rovers and the emergency services. With some previously unseen photographs, the book covers the M24 project, the genesis of the 205, the legendary 1.6 and 1.9 GTI models and the popular CTI convertibles and other special editions. Advice is given on buying, maintaining and modifying 205s today and finally there is an exclusive interview with rallying legend Ari Vatanen.

Jaguar XJ-S James Taylor, 2019-05-13 James Taylor remembers very well the disappointment among his petrol head friends when the XJ S was announced in 1975. It was not a replacement for the legendary E type; its colours were uninspired and its interior was drab. All credit then to those people at Jaguar who truly believed in the car and over a period of nearly 20 years turned the ugly duckling into a swan. From the moment the XJ S HE arrived in 1981, there seemed to be renewed hope and from then on the car went from strength to strength to become the much admired grand tourer it always should have been. The book contains a timeline of the key events in the history of the XJ S and an overview of the evolution of the XJ S from the XJ27 prototype. There are Appendices covering identification serial numbers, UK showroom prices through the years and sales in the US by year.
