Critical Theory and the Humanities in the Age of the Alt-Right Christine M. Battista, Melissa R. Sande, 2019-06-22 This edited collection uses critical theory in order to understand the rise of the Alt Right and the election of Donald Trump and in doing so to assert the necessity and value of various disciplines within the humanities While neoliberal mainstream culture has expressed shock at the seemingly expeditious rise of the Alt Right movement and the outcome of the 2016 United States presidential election a rich tradition of theory may not only explain the occurrence of this phenomenon but may also chart an alternative understanding of the movement revealing the persistence of right wing populism throughout the twentieth and twenty first centuries Though the humanities have seen themselves undervalued and under attack in recent years the historical and

cultural contextualization of the current moment via theory is a means of reaffirming the value of the humanities in teaching the ever important and multifaceted skill of critical literacy This book re affirms the humanities particularly the study of literature theory and philosophy through questions such as how the humanities can help us understand the here and now

Poststructuralism and Critical Theory's Second Generation Alan D. Schrift,2014-09-11 Poststructuralism and Critical Theory s Second Generation analyses the major themes and developments in a period that brought continental philosophy to the forefront of scholarship in a variety of humanities and social science disciplines and that set the agenda for philosophical thought on the continent and elsewhere from the 1960s to the present Focusing on the years 1960 1984 the volume examines the major figures associated with poststructuralism and the second generation of critical theory the two dominant movements that emerged in the 1960s Althusser Foucault Deleuze Derrida Lyotard Irigaray and Habermas Influential thinkers such as Serres Bourdieu and Rorty who are not easily placed in standard histories of the period are also covered Beyond this thematic essays engage with issues as diverse as the Nietzschean legacy the linguistic turn in continental thinking the phenomenological inheritance of Gadamer and Ricoeur the influence of psychoanalysis the emergence of feminist thought and a philosophy of sexual difference the renewal of the critical theory tradition and the importation of continental philosophy into literary theory

Systematic Theology, Volume 2, Second Edition James Leo Garrett Jr.,2014-09-14 Rivals the major systematic theologies of this century Baptist History and Heritage Journal July 1996 One of the characteristics of Garrett s system that needs especially to be noted is its balanced judicious and nearly invariably objective presentation of materials While holding true to the teachings of his own Baptist faith Garrett so carefully and judiciously presents alternatives that teachers and students from other confessional and denominational positions will find his work instructive Consensus 1997 If one is searching for an extensive exposition of the biblical foundations and historical developments of the various loci of systematic theology there is no more complete presentation in a relatively short work than this Pastors will especially find this feature to be a real help in teaching theology It is an indispensable contribution to the task of systematic theology Journal of the Evangelical Theological Society September 1999 Many students and pastors

will find all they need here and will in addition be helped to relate their knowledge to recent developments in the theological world The Churchman A Journal of Anglican Theology 1991 A gold mine of helpful material The Christian Century May 29 June 5 1991 No book that I know is more loaded with biblical and theological facts than this one The prodigious research that must have gone into the preparation of this volume is truly mind boggling Faith and Mission Fall 1991 Garrett has provided a massive and scholarly systematic theology from a thoroughly conservative and comprehensive viewpoint The work is well documented in both biblical and historical scholarship and will prove to be a classic William Hendrickson Southern Baptist Theological Seminary One of the most comprehensive concise books of its type available it should receive wide use in the classroom and in the study Robert H Culpepper Southern Baptist Theological Seminary *Systematic Theology, Volume 2, Second Edition* James Leo Garrett, 2014-09-14 Rivals the major systematic theologies of this century Baptist History and Heritage Journal July 1996 One of the characteristics of Garrett's system that needs especially to be noted is its balanced judicious and nearly invariably objective presentation of materials While holding true to the teachings of his own Baptist faith Garrett so carefully and judiciously presents alternatives that teachers and students from other confessional and denominational positions will find his work instructive Consensus 1997 If one is searching for an extensive exposition of the biblical foundations and historical developments of the various loci of systematic theology there is no more complete presentation in a relatively short work than this Pastors will especially find this feature to be a real help in teaching theology It is an indispensable contribution to the task of systematic theology Journal of the Evangelical Theological Society September 1999 Many students and pastors will find all they need here and will in addition be helped to relate their knowledge to recent developments in the theological world The Churchman A Journal of Anglican Theology 1991 A gold mine of helpful material The Christian Century May 29 June 5 1991 No book that I know is more loaded with biblical and theological facts than this one The prodigious research that must have gone into the preparation of this volume is truly mind boggling Faith and Mission Fall 1991 Garrett has provided a massive and scholarly systematic theology from a thoroughly conservative and comprehensive viewpoint The work is well documented in both biblical and historical scholarship and will prove to be a classic William Hendrickson Southern Baptist Theological Seminary One of the most comprehensive concise books of its type available it should receive wide use in the classroom and in the study Robert H Culpepper Southern Baptist Theological Seminary *The Marxian Legacy* Dick Howard, 2019-02-14 The Marxian Legacy first published in 1977 and released in a second edition in 1988 was and remains distinct in its view of Marxian theory as critique aware of its own origins and limitations and self conscious about its own historical rootedness in changing social and political conditions This new and fully revised third edition retains the original synthesis of the divergent traditions of German critical and French Marxisms into a living Marxian legacy that changes and reconceptualizes itself while also providing a new critical introduction and concluding chapter Such a re evaluation of the Marxian legacy which was urgent in the 1970s when the

United States was caught up in imperial wars and domestic as well as racial conflict remains relevant today when as was the case nearly half a century ago Marx's legacy has largely been forgotten and yet remains as a symbol of radical thinking that could inspire the new movements The Marxian Legacy 3rd Edition retains the freshness of discovery from those times while fully updating the text for our contemporary moment and adding two features a philosophical closure and a perspective on what was possible then and what remains to be done today
