The Altruistic Gene - Revisited: S.T. Evensen, 2018-12-14 This book replaces a fiction 2005 in the Altruistic Gene trilogy and covers what really happened to an industrial family in 2005 2018 It signals faith in the power of collaboration to attain social impact by effective altruism also setting new standards benefiting others The book offers perspectives on business institutional as well as societal development It also relates historic values of peripheral isles and coastal areas in Northern Europe namely gender parity and the right to resist by freedom of speech in a direct democracy protected by common law Telling about the actuality of these values that is the purpose and rationale of the book Part 1 of the book follows the elders of the family from 2005 until 2011 The elders foresaw structural changes as well as crises of trust caused by elite circulation collusion and fragmentation of decision making benefiting special interests They chose to carry through a transition of power to their children whom had become stepparents of two nephews victims of their biological parents high and deadly profiles A primary objective of the transition was to protect the family and reduce its profile in the media and markets by divesting holdings in traditional industries The elders wanted the stepparents to prepare the next generation for an early transition of power and they involved the family's confidants as mentors They also financed a task force for security and intelligence with a hidden agenda Part 2 and 3 of the book follow the endeavors of the next generation during 2012 2018 The family's values made the next generation take on responsibilities with a strong sense of duty The two adopted sons sought innovation and experiences in both the south and north of Europe where they were faced with the causes and later repercussions of economic crises in 2007 2009 The collusion resulted in crises of trust and debt Their findings on deliberative transparent

pluralism Good governance requires agility enterprise and ethics as well as collaboration fair play and predictability They pursued ideas benefiting the atomist the individual without influence alone by impartiality coresponsibility empowerment and collaboration They saw the need to reinvent activities of trustees fiduciaries and facilitate effective basic infrastructure benefiting also small and mid-sized enterprises SMEs without names in the markets and media Therefore they decided to promote and participate in a social enterprise for impact investing organized as an innovative collaborative value network CVN A CVN can reach into the real economies of maritime regions where needs of owners enterprisers and investors are similar everywhere The book draws a circle with an unexpected end one of the adopted sons encounters a young woman with a surprise connection to the death of his biological parents An early transition starts and a CVN approach for impact investing is set in motion New ways are commenced e.g. efforts to stop favoring of special interests as well as to draft a pact on altruism against obscurantism Telling about these endeavors ends the author's book series on pluralism ethics and enterprise The draft pact on altruism is not important but the idea of such a draft is when spread in growing circles This book and Nordic Model Analyses 2016 invite readers to participate in an anthology for building alternative visions of Nordic and similar societal models by combining pluralism ethics enterprise and welfare as well as gender parity secularity diversity and ecumenism Cf www.bankier.co

Beyond Fragmentation Ingrid Pedroni, 2023-03-09 Profoundly honest unflinching in examining her own history as a thinker and clinician Ingrid Pedroni challenges us to see where we have been and where we have failed each of us Donna Orange from the Foreword Ingrid Pedroni is multicultural to her core Fully fluent in German Italian and English she took that multilingual outlook to the varied world of psychoanalysis Beginning her journey with a Jungian analysis she later read *The Restoration of the Self* by Heinz Kohut and discovered a theoretical and clinical framework consistent with her Jungian experience Thus began her engagement with different theoretical dimensions and clinical settings *Beyond Fragmentation* is a masterly overview of the result of her open minded exploration of not only traditional and contemporary psychoanalytic schools of thought but also systemic family therapy plus modern anthropology theatre and literature Part I explores the integration of different theoretical and clinical models with special reference to self psychology and relational psychoanalysis Part II outlines significant areas of experience that build the sense of self and how it is represented in intra psychic and inter relational dimensions Part III focuses on couple and family relations their evolution over time and how they represent an essential part of the self The final part deals with the treatment of cultural diversity the universality of attachment bonds and the extreme specificity of their cultural expression Throughout the book are clinical and theoretical concepts derived from authors such as Adler Jung Rank Fromm Ferenczi Klein Winnicott Loewald Bowlby Bion and of course Freud The clinical examples illustrate how it is possible to weave together the various threads of theoretical thinking and clinical practice not only in the many diversified psychoanalytic schools but also in the larger field of the psychotherapies The varied themes covered include gender couple relations family therapy spirituality cultural diversity

and integration migration transcultural psychotherapy and collective trauma This book is essential reading for trainee and practising clinicians and may well help them to find their own integration of therapeutic experiences Professionals active in social educational and psychological fields will also find much useful and engaging information to help them in their work

Nordic Model Analyses: S. T. Evensen, 2016-05-31 The crux of this book is that it can help build Vision and processes for improvements by stances on positive development syndromes versus special interests scenarios That may even open up to serendipity In contrast there are specific econometric models and adjacent historic data which lack contact with today's diverse events of real life i.e. behavioural aspects and the risk of changes It is much too easy to build a scenario based on game theory and/or accepting others' algorithm based on interpretation of behaviour and risk of changes defined by so-called elasticities By embracing the financial economy a ring of well-positioned econometricians has gained power Worldwide especially in small Nordic countries where seeking consensus based on historic data is a common practice New insight tends to arrive too late unforeseen events will continue to surprise Such countries are easily exploited by elite circulation and fragmentation of decision making benefiting special interests The GAP between the financial and the real economy will grow Hidden agendas and asymmetric information will thrive The results are losses of resources plus disintegration for a large majority of enterprises and citizens One may say that the demise of the old-fashioned Nordic model is embedded in the gullibility of its inmates They look up to authorities and lack the needed oversight agility and sense of urgency to adapt and change To rock the boat and reinvent the Nordic model is much needed It can be attained by focusing on the real economy and the behaviour of its inmates

Le Coran au risque de la psychanalyse Olfa Youssef, 2014-08-01 On parle beaucoup aujourd'hui de relire le Coran de réinterpréter le Coran de refuser certaines lectures extrêmes Derrière ces prétentions de principe on trouve le postulat selon lequel il y aurait plusieurs lectures possibles du texte sacré des musulmans Si cette idée n'est pas nouvelle elle est présente depuis les débuts de l'islam rares sont ceux qui en ont exploré les conséquences la lumière des savoirs modernes Olfa Youssef universitaire spécialisée en linguistique psychanalyste et qui en tant que femme maghrébine a vécu au quotidien les conséquences des interprétations coraniques emploie ici les outils de la théorie du langage de la sémiologie et de la psychanalyse pour mettre au jour les structures linguistiques sémiotiques et inconscientes du Coran et de ce que ses lecteurs y mettent d'eux-mêmes Une lecture post-moderne du texte qu'il est indispensable de comprendre notre époque

Revue française de psychanalyse, 1927 **Psychanalyse et imaginal** Pierre Solié, 1980-01-01 Je rêvais d'un autre monde Dounia Bouzar, Serge Hefez, 2017-02-22 Le phénomène ne prend de l'ampleur les jeunes Français sont de plus en plus nombreux se radicaliser et faire alliance l'état islamique La grande majorité d'entre eux a entre 15 et 25 ans Pour le reste tout les distingue leurs origines leur milieu social leur religion leur culture leur niveau d'études leur caractère et leur parcours individuel Pourtant aussi différents soient-ils ils ont en commun de succomber aux sirènes de la propagande de Daech et de s'engager ses côtés adhèrent sans réserve une idéologie au nom de laquelle certains vont jusqu'à commettre des

actes meurtriers contre leur pays et ceux qui pourraient trahir leur famille leurs amis et leurs pairs Que se passe-t-il au juste dans l'esprit d'un jeune prêt à risquer sa vie pour s'engager Comment peut-il en arriver là Pourquoi est-il séduit par le discours extrême de l'état islamique Qu'est-ce qui le pousse à rompre radicalement avec tout ce qui a fait sa vie jusqu'ici Quand le jeune embrigadé a tiré un trait sur sa famille pour se tourner vers une famille de substitution quand il a remplacé la raison par le mimétisme et la répartition quand c'est le groupe qui pense sa place quand il ne ressent plus rien pour personne quand il veut tuer et mourir comment le remobiliser en tant qu'individu Ces jeunes gens sous emprise levés dans les réseaux sociaux baignés de réalité virtuelle n'hésitent pas à passer l'acte pour vivre un idéal et ne plus se contenter de le rêver Ils nous inquiètent nous dérangent et nous interrogent Sont-ils des symptômes de notre époque Entre fragilité inhérente à l'adolescence engagement fanatisme radicalisation et folie meurtrière où se situe la frontière Ensemble les auteurs aident des jeunes et leur famille à sortir de l'embrigadement Ils décryptent ici les méthodes employées par les recruteurs de l'état islamique et nous aident à comprendre les processus à l'œuvre dans la radicalisation adolescente Avec en filigrane l'espoir de permettre aux jeunes de retrouver leur liberté de penser

Moeurs Alain Deneault, 2022-05-05T00:00:00-04:00 Ce nouvel essai d'Alain Deneault poursuit les réflexions entamées dans *La monarchie* quant aux effets de l'interaction entre la technocratie capitaliste et l'individualisme sur le débat public L'auteur nous invite à rompre avec la dynamique des querelles identitaires où chacun se rapporte à sa conscience comme à un bâton dont on se sert pour frapper autrui Il déplore la dégradation en clichés de catégories pourtant importantes privilège racisme systémique censure fascisme tout en portant un regard critique sur une droite conservatrice qui défend bec et ongles la liberté d'expression pour les seuls discours qui lui conviennent S'interrogeant sur la difficulté de concevoir l'émancipation l'opprimé les usages opportunistes de la parole il rappelle l'importance des enjeux sur lesquels portent ces débats le commun l'égalité la culture la critique du capital et la suite du monde
