Adam Tocock Reference Reviews

In discussing a criminology topic lecturers and course textbooks often toss out names of theorists or make a sideways reference to a particular theory and move on as if assuming their student audience possesses the necessary background to appreciate and integrate the reference However university reference librarians can tell you this is often far from the case Students often approach them seeking a source to provide a quick overview of a particular theory or theorist with just the basics the who what where how and why if you will And reference librarians often find it difficult to guide these students to a quick one stop source
