Civic Space Or Cyberspace The American Public Library In The Information Age:

Civic Space/Cyberspace Redmond Kathleen Molz, Phyllis Dain, 1999-03-03 Quintessentially American institutions symbols of community spirit and the American faith in education public libraries are ubiquitous in the United States Close to a billion library visits are made each year and more children join summer reading programs than little league baseball Public libraries are local institutions as different as the communities they serve Yet their basic services techniques and professional credo are essentially similar and they offer through technology and cooperative agreements myriad materials and information far beyond their own walls In *Civic Space Cyberspace* Redmond Kathleen Molz and Phyllis Dain assess the current condition and direction of the American public library They consider the challenges and opportunities presented by new electronic technologies changing public policy fiscal realities and cultural trends They draw on site visits and interviews conducted across the country extensive reading of reports surveys and other documents and their long standing interest in the library's place in the social and civic structure The book uniquely combines a scholarly humanistic and historical approach to public libraries with a clear eyed look at their problems and prospects including their role in the emerging national information infrastructure

Civic Librarianship Ronald B. McCabe, 2001 After decades of cultural warfare and political gridlock the U S is beginning to find its balance thanks to a major cultural shift toward strengthening communities and other endangered social structures *Civic Librarianship* explores the ideas of this new community movement and shows how they can transform public libraries by offering a renewed sense of purpose and powerful new strategies for development

Circulation of Power Michael M. Widdersheim, 2023-05-22 What is the public sphere how is it best described and what role does it play in modern life These questions have attracted considerable attention within library and information science circles over several decades especially regarding public libraries *Circulation of Power* contributes to this discussion by proposing a new research framework and new methods for analyzing public sphere communication Using extensive data gathered from an urban public library infrastructure this historical case study demonstrates how public sphere communication shaped the infrastructure's development over time producing both changes and continuities across the case's nine periods Two new conceptual tools circuits and decisions cycles form the study's research framework and a new explanatory theory RLCr or Releaser theory accounts for why the infrastructure developed as it did Consideration of competing theories reveals that public sphere communication remains the best explanation for infrastructural development This book's meticulous historical narrative of the greater Pittsburgh case supplemented by its groundbreaking theory and innovative mixed methods design is of interest to practitioners academics and general readers alike

Wayne A. Wiegand, 2015-09-10 Despite dire predictions in the late twentieth century that public libraries would not survive the turn of the millennium their numbers have only increased Two of three Americans frequent a public library at least once a year and nearly that many are registered borrowers Although library authorities have argued that the public library

functions primarily as a civic institution necessary for maintaining democracy generations of library patrons tell a different story In *Part of Our Lives* Wayne A Wiegand delves into the heart of why Americans love their libraries The book traces the history of the public library featuring records and testimonies from as early as 1850 Rather than analyzing the words of library founders and managers Wiegand listens to the voices of everyday patrons who cherished libraries Drawing on newspaper articles memoirs and biographies *Part of Our Lives* paints a clear and engaging picture of Americans who value libraries not only as civic institutions but also as public places that promote and maintain community Whether as a public space a place for accessing information or a home for reading material that helps patrons make sense of the world around them the public library has a rich history of meaning for millions of Americans From colonial times through the recent technological revolution libraries have continuously adapted to better serve the needs of their communities Wiegand demonstrates that although cultural authorities including some librarians have often disparaged reading books considered not serious the commonplace reading materials users obtained from public libraries have had a transformative effect for many including people such as Ronald Reagan Bill Moyers Edgwin Danticat Philip Roth Toni Morrison Sonia Sotomayor and Oprah Winfrey A bold challenge to conventional thinking about the American public library *Part of Our Lives* is an insightful look into one of America's most beloved cultural institutions

Dismantling the Public Sphere John E. Buschman, 2003-08-30 This work presents a thorough examination of librarianship and the social and economic contexts in which the profession and its institutions operate As a basis of analysis Buschman employs critical education scholarship and the research of German philosopher Jurgen Habermas whose seminal work on the public sphere the arena in which the public organizes itself and formulates public opinion serves as a meta framework for Buschman s study of librarianship Buschman asserts that a significant shift has occurred from the library as a contributor to the public good to a model where economic rationality directs policy He challenges much of the current thinking and assumptions guiding libraries exploring the circumstances in which librarians and libraries operate and linking the profession back to democratic and public purposes as the core essence of the field Chapters include Crisis Culture and the Need for a Defense of Librarianship in the Public Sphere The New Public Philosophy and Critical Educational Analysis The Public Sphere Rounding Out the Context of Librarianship Studies in Librarianship and the Dismantling of the Public Sphere Follow the Money Library Funding and Information Capitalism Follow the Leader Library Management and the New Public Philosophy On Customer Driven Librarianship Drifting Toward the Corporate Model ALA Notes on Postmodern Technology Technocracy and Libraries The Public Sphere and Democratic Possibility Highly recommended for courses in policy and librarianship as well as for academic
