Afrosolian Knowledge and Cheikh Anta Diop François Ngoa Kodena, 2023-07-03 Afrosolian Knowledge and Cheikh Anta Diop Geo Ethical and Political Implications wrestles with the cultural epistemological ethical and geopolitical conundrums of our contemporary world The book offers fresh conceptual and dialogical frameworks that allow the reader to explore alternative perspectives on the axiological impasses of philosophia A cultural slide from Greek to Afrikan terrain offers a novel semantic trove namely sofia in the Beti Mvett Therefore sophia calls for sofia the trope for subjective and social solarization Fran ois Ngoa Kodena argues that sofia is a psychological discursive social and civilizational sickle constantly sharpened to weed barbarism in its alienating imperial colonial mental linguistic racist and prejudicial overtones from private and public spheres Kodena s methodology is direct and trans disciplinary his overall ontological outlook is curative and conciliatory After expounding an Afrosolian Antadiopian paradigm the author undertakes an in depth examination of Cheikh

Anta Diop's epistemology to uncover its subtle underlying threads connecting Africa to the Kemetic cosmic law of becoming called kheper. Contemporary humanity is thus faced with a crucial dilemma: civilization or barbarism. The former informs earthly existential struggles and epistemic Afrosophic practices. *She Who Spins the Coils of Creation* Leslene della-Madre, 2023-06-28. Leslene della Madre's book *She Who Spins Creation: Sacred Female Cosmology in the Electric Plasma Universe* is essential medicine and a much-needed balm for the spirit in these perilous times of toxic masculinity, toxic capitalism, toxic patriarchy, and the perpetuation of the annihilation of women's wisdom and power, also known as the Inquisition, in which female embodied existence and wisdom continue to be silenced and every attempt to eradicate us, deny our culture, belittle and erase our knowledge, continues to unfold. It is also a master class in how to excavate and reclaim female embodied experience, wisdom, empowerment, and sovereignty. Della Madre exposes the misogyny inherent in patriarchal myth and science, from physics to molecular biology, delving into the mysteries of matter, the mammalian egg, mythologies of female origins, the Electric Universe, plasma cosmology, and much, much more. She invites us to awaken to the reality of a truly female cosmology that has always reflected as above, so below, and always will, but that has been denied and subjected to nearly complete erasure in numerous ways by male-dominated realities. In doing so, she invokes us to challenge the amnesia of the ages, question all we have been told about who we are, where we come from, and who we can become. She implores us to feel our horns and wings again and reclaim a world in which we understand that we are all electric plasma beings, intertwined and interconnected in tune with the cosmos, the greater organism. This is the way to heal the violence that has been done to the Earth, Nature, and women by thousands of years of patriarchal colonization. This book is also a clarion call for action for women to remember our magic and to seek guidance from the ancestral realms to help restore us to wholeness. This profound book should be made into a documentary series. Mary Saracino, author, LAMBDA award finalist. *A Burst of Conscious Light* Andrew Silverman, 2020-02-11. Provides evidence that human consciousness can never be reproduced and exposes the perils of artificial intelligence. Explains how consciousness transcends the brain and body through quantum theory and accounts of consciousness in the clinically dead. Shares scientific evidence of how the image on the Shroud of Turin was produced and connects these findings to evidence concerning near-death experiences. Reveals how consciousness cannot be reproduced by a machine and how attempts to do so threaten what makes us human. Stephen Hawking once said that the unanticipated consequences of artificial intelligence will be the greatest threat to humanity's survival. In this book, Dr. Andrew Silverman reveals why the powerful consciousness of the human mind could never be manufactured and so cannot be reproduced with technology. Integrating extensive scientific research from three seemingly unrelated fields of study: quantum mechanics, near-death experiences, and the Shroud of Turin, Silverman reveals the pitfalls and perils of artificial intelligence and addresses the fundamentally flawed thinking that underlies it. Drawing on his work as one of the leading experts on the Shroud of Turin, as well as research by scientists from NASA and Los Alamos, he shows how

the image on the Shroud could only have been produced by a flash of light as intense as a nuclear explosion a burst of light that occurred after the body was in the tomb Sharing medical evidence of consciousness in people declared clinically dead the author shows how the light of consciousness evidenced by the Shroud is also a consistent feature of most near death experiences Exploring the non local nature of consciousness how it transcends the physical brain and body Silverman explains why the human mind cannot be reduced to a computer and examines what separates sentient beings from machines He shows how getting caught up in the push for artificial intelligence and the technological quest for immortality through the attempt to download our minds onto computers will only lead us to devalue and erase what makes us unique and irreplaceable in this cold dark universe our humanity
