An American Town and the Vietnam War Tony Pavia, Matt Pavia, 2018-10-02 Hundreds of young Americans from the town of Stamford Connecticut fought in the Vietnam War These men and women came from all corners of the town They were white and black poor and wealthy Some had not finished high school others had graduate degrees They served as grunts and helicopter pilots battlefield surgeons and nurses combat engineers and mine sweepers Greeted with indifference and sometimes hostility upon their return home Stamford's veterans learned to suppress their memories in a nation fraught with political economic and racial tensions Now in their late 60s and 70s these veterans have begun to tell their stories **VA**

Stephen R Ortiz, 2012-11-04 The study of military veterans and politics has been a growing topic of interest but to date most research on the topic has remained isolated in specific unconnected fields of inquiry Veterans Policies Veterans Politics is the first multidisciplinary comprehensive examination of the American veteran experience Stephen Ortiz has compiled some of the best work on the formation and impact of veterans policies the politics of veterans issues and veterans political engagement over the course of the twentieth and twenty first centuries in the United States By examining the U S

government's treatment of veterans vis vis such topics as health care disability race the GI Bill and combat exposure the contributors reveal how debates regarding veterans policies inevitably turn into larger political battles over citizenship and the role of the federal government With the conflicts in Afghanistan and Iraq now the longest military operations in U S history and the numbers of veterans returning from overseas deployment higher than they've been in a generation this is a timely and necessary book

Veterans and Agent Orange National Academies of Sciences, Engineering, and Medicine, Institute of Medicine, Board on the Health of Select Populations, Committee to Review the Health Effects in Vietnam Veterans of Exposure to Herbicides (Tenth Biennial Update), 2016-03-29 From 1962 to 1971 the US military sprayed herbicides over Vietnam to strip the thick jungle canopy that could conceal opposition forces to destroy crops that those forces might depend on and to clear tall grasses and bushes from the perimeters of US base camps and outlying fire support bases Mixtures of 2,4-dichlorophenoxyacetic acid (2,4-D) 2,4,5-trichlorophenoxyacetic acid (2,4,5-T) picloram and cacodylic acid made up the bulk of the herbicides sprayed The main chemical mixture sprayed was Agent Orange a 50/50 mixture of 2,4-D and 2,4,5-T At the time of the spraying 2,3,7,8-tetrachlorodibenzo-p-dioxin (TCDD) the most toxic form of dioxin was an unintended contaminant generated during the production of 2,4,5-T and so was present in Agent Orange and some other formulations sprayed in Vietnam Because of complaints from returning Vietnam veterans about their own health and that of their children combined with emerging toxicologic evidence of adverse effects of phenoxy herbicides and TCDD the National Academy of Sciences was asked to perform a comprehensive evaluation of scientific and medical information regarding the health effects of exposure to Agent Orange other herbicides used in Vietnam and the various components of those herbicides including TCDD Updated evaluations were conducted every two years to review newly available literature and draw conclusions from the overall evidence Veterans and Agent Orange Update 2014 is a cumulative report of the series thus far
