Women, Violence and Postmillennial Romance Fiction Emma Roche, 2023-04-21 This book interrogates the significance of the revival and reformulation of the romance genre in the postmillennial period Emma Roche examines how six popular novels published between 2005 and 2015 *Twilight* *Fifty Shades of Grey* *Gone Girl* *Sharp Objects* and *The Girl on the Train* reanimate and modify recognisable tropes from the romance genre to reflect a neoliberal and postfeminist cultural climate As such Roche argues these novels function as crucial spaces for interrogating and challenging those contemporary gender ideologies Throughout the book Roche addresses and critiques several key attributes of neoliberal postfeminism including a pervasive emphasis on individualism and personal responsibility an insistent requirement for self monitoring self surveillance and bodywork the celebration of consumerism and its associated pleasures the prescription of mandatory optimism and suppressing one s negative emotions and the endorsement of choice as a primary marker of women s empowerment While much critical attention has been devoted to those attributes and their pernicious effects Roche argues that one crucial repercussion has been largely overlooked in contemporary cultural criticism how these ideologies function together to effectively sanction gender based violence Thus Roche exploits textual analysis to demonstrate the subtle ways in which neoliberal postfeminism can augment women s vulnerability to male violence

This Book So Great Jo Walton, 2014-01-21 A remarkable guided tour through the field a kind of nonfiction companion to Among Others It's very good It's great Cory Doctorow Boing Boing As any reader of Jo Walton's Among Others might guess Walton is both an inveterate reader of SF and fantasy and a chronic re-reader of books In 2008 then new science fiction mega site Tor.com asked Walton to blog regularly about her re-reading about all kinds of older fantasy and SF ranging from acknowledged classics to guilty pleasures to forgotten oddities and gems These posts have consistently been among the most popular features of Tor.com Now this volume presents a selection of the best of them ranging from short essays to long reassessments of some of the field's most ambitious series Among Walton's many subjects here are the Zones of Thought novels of Vernor Vinge the question of what genre readers mean by mainstream the underappreciated SF adventures of C. J. Cherryh the field's many approaches to time travel the masterful science fiction of Samuel R. Delany Salman Rushdie's Midnight's Children the early Hainish novels of Ursula K. Le Guin and a Robert A. Heinlein novel you have most certainly never read Over 130 essays in all What Makes This Book So Great is an immensely readable engaging collection of provocative opinionated thoughts about past and present day fantasy and science fiction from one of our best writers For readers unschooled in the history of SF this book is a treasure trove Publishers Weekly starred review [Youth Fiction and Trans Representation](#) Tom Sandercock, 2022-07-29 Youth Fiction and Trans Representation is the first book that wholly addresses the growth of trans and gender variant representation in literature television and films for children and young adults in the twenty first century Ranging across an array of media including picture books novels graphic novels animated cartoons and live action television and feature films Youth Fiction and Trans Representation examines how youth texts are addressing and contributing to ongoing shifts in understandings of gender in the new millennium While perhaps once considered inappropriate for youth and continuing to face backlash trans and gender variant representation in texts for young people has become more common which signals changes in understandings of childhood and adolescence as well as

gender expression and identity Youth Fiction and Trans Representation provides a broad outline of developments in trans and gender variant depictions for young people in the late twentieth and early twenty first centuries and closely analyzes a series of millennial literary and screen texts to consider how they communicate a range of often competing ideas about gender identity expression and embodiment to implied child and adolescent audiences
