Circulation Savoirs Reconfiguration Id Es Collectif:

Fiction et économie Collectif, 2013-11-14T00:00:00-05:00 Au cours du XIXe siècle dans le cadre de l'émergence progressive des sciences humaines et sociales l'économie s'affirme de façon polémique comme capable de rendre compte du fonctionnement du réel et même de l'anticiper bref comme un savoir prévisionnel homogénéique Cet essor de la pensée économique combiné avec le développement effectif du capitalisme conduit la généralisation des schèmes de pensée économiques dans le discours social et ce du XIXe siècle jusqu'à l'époque contemporaine Or ces schèmes de pensée se retrouvent aussi dans les fictions proposées par la littérature et les arts du spectacle cependant ils y prennent des formes qui impliquent souvent des transformations ludiques ou critiques En effet une œuvre est en soi une structure où se déploient le changement la réciprocité le don le gain ou la perte le vol ou l'appropriation Mais en raison même de leur statut économique problématique c'est souvent aux formes parallèles souterraines et illégitimes de l'économie que les œuvres se réfèrent Elles tablissent ainsi en décalage de l'harmonie et dans un rapport mouvant face elle un espace où se représentent autrement la vie sociale et les rapports entre les êtres De la sorte elles peuvent opérer une exigence qui est d'emblée une lecture critique C'est l'examen de pans variés de cet imaginaire économique dans la littérature et les arts du spectacle que se consacrent les contributeurs de ce recueil avec la conviction que les productions esthétiques peuvent aider saisir et interpréter dans la longue durée comme dans le contexte contemporain les phénomènes économiques qui nous entourent

H2PTM'25 Imad Saleh, Nasreddine Bouhaï, Luc Massou, Sylvie Leleu-Merviel, 2025-10-16 Hypermedia et communs numériques est le thème invité de la 18e édition de la conférence H2PTM Dans la continuité des précédentes éditions H2PTM 25 poursuit la valorisation des recherches pluridisciplinaires sur les hypertextes et les hypermedia dont les applications se déploient dans

des domaines variés : sciences humaines et sociales, informatique, sport, art, sciences cognitives. Chaque édition met en lumière un thème d'actualité afin d'enrichir les débats scientifiques. Cette année en plus des thématiques historiques de la conférence, l'accent est mis sur les liens entre hypermédias et communs numériques dont l'importance ne cesse de croître dans un contexte marqué par l'émergence de l'intelligence artificielle générative et le développement des pratiques collaboratives. H2PTM 25 interroge ainsi les dispositifs, outils, méthodes, usages, données, traces, ainsi que les acteurs humains et non humains qui participent à la création de ces communs numériques. Cet ouvrage regroupe l'ensemble des communications sélectionnées par le comité scientifique de la conférence et présentées à Metz à l'Université de Lorraine les 15, 16 et 17 octobre 2025. **Freud, Wallon, Lacan** Emile Jalley, 1998. Le stade du miroir est le juste titre au nom de Jacques Lacan. Les travaux d'Emile Jalley nous amènent à réfléchir sur les antécédents multiples de ce qui compose ce célèbre stade du miroir tant dans les domaines de l'ethnologie, de la philosophie, de la psychologie que de la psychiatrie. Emile Jalley nous livre son hypothèse : savoir que le psychologue de l'enfance Henri Wallon a occupé une position de relais de nature singulière entre Lacan d'une part, Freud et Hegel d'autre part. Que Lacan ait critiqué la dimension psychologique de la psychanalyse ne l'a pas empêché de tirer au préalable le meilleur parti de ce que lui offrait de plus consistant la psychologie française en l'occurrence l'œuvre de Wallon. Cette perspective prend sa véritable signification en identifiant le champ de la pensée freudienne comme terrain d'origine aussi bien de la pensée lacanienne que des descriptions walloniennes. Emile Jalley dispose cette toile de fond sur l'horizon plus lointain de la philosophie, en particulier la philosophie romantique allemande.
