IPS in GNS3

Hi All,

I am facing an issue in GNS3 while emulating IPS. I am able to access the CLI as well as IDM but unable to enable any signature which is disable by default. Whenever I am trying to enable the signature it stuck on a window displaying "Communicating with Sensor". I have been through from some threads which suggest that it will take some time due to slow emulation of Demos. I tried all the possibility from my side but unable to resolve this issue.

Can any one suggest any solution.

Regards,

Bikas Pandey

Re: IPS in GNS3

Hi Bikas

I am afraid you will have to provide more information in order for people to be able to assist with your question. For example what are the current Quermis options set? Which version of GNS3? Could you please post the relevant configuration (I assuming that you have already added the monitoring host, such as IDS Security Monitor, to the allowed hosts list, otherwise they will not be able to communicate with the sensor.)
