

The book cover features a surreal painting. A woman with a pale, featureless face and reddish-brown hair is seated in a body of water, wearing a red dress. She holds a small blue object in her right hand, from which a stream of blue liquid falls into the water. To her left is a woven basket filled with dark purple items. To her right, a black dog sits on the grassy bank. In the background, a large black bird with white wingtips is perched on a branch. The water is a vibrant blue-green, and several fish are visible. The scene is framed by dark, stylized trees.

Citizens, Civil Society, and Activism under the EPRDF Regime in Ethiopia Camille Louise Pellerin, Logan Cochrane, 2023-07-15 In 2014-15 the Ethiopian government together with many academics and observers was surprised by the outbreak of anti government protests as large scale public contestation of the Ethiopian People's Revolutionary Democratic Front EPRDF had been largely absent in the regime's history The dominant narrative about the EPRDF regime was that it was a top down government using authoritarian methods to ensure the population abided by its visions and directives and describing its role in paternalistic ways such as being the protector and guardian of the people Changing this narrative *Citizens Civil Society and Activism under the EPRDF Regime in Ethiopia* considers how citizens and civil society expressed their interests and exerted their agency in an authoritarian setting Focusing on the EPRDF regime over a period of three decades up to 2019 the book explores civic activism in Ethiopia presenting diverse examples of how citizens have reshaped the country Challenging state centric readings of state society relations under EPRDF governance this collection provides a counternarrative that emphasizes the role and agency of citizens and civil society The contributing authors draw on a heuristic analytical framework that examines different types of interactions between civil society and state actors co-optation co-operation coexistence and contestation and captures the ways in which civil society actors make their voices

heard At a time when authoritarian forms of governance are increasingly prevalent across the world this critically important collection offers insight into how citizens claim their agency and challenge state power in apparently top down contexts
