Dialectical Journal Into The Wild:

Logic in the Wild Patrick Girard, 2024-05-14 Is logic a good tool for making decisions Can it make us better listeners and help us find coherence in views that we disagree with Is Sherlock Holmes actually good at logic Patrick Girard addresses these and other questions by presenting logic as the guardian of coherence Logic Girard argues finds coherence in the patterns of reasoning across science religion and everyday decision making It helps communities engage safely by replacing contentious debates with shared constructive reasoning logic provides neutral ground for the healthy pursuit of common goals and interests Logic in the Wild employs common sense language eschewing technical jargon symbols and equations Girard's attention focuses on logic's power to find what unites the complex and the simple the abstract and the concrete the theoretical and the practical In treating logic not as a passive subject to learn but as an active discipline to engage with Logic in the Wild teaches us to identify patterns in our own reasoning which inevitably helps us better confront questions central to everyday life
