

A DIALOGUE BETWEEN AN ATHEIST PROFESSOR & A MUSLIM STUDENT

The following scenario takes place at an educational institute:

"Let me explain the problem science has with God..." The atheist professor of philosophy pauses before his class and then asks one of his new students to stand. "You're a Muslim, aren't you, son?"

"Yes, sir."

"So, you believe in God?"

"Absolutely!"

"Is God good?"

"Sure! God's good!"

"Is God all-powerful? Can God do anything?"

"Yes."

The professor grins knowingly and considers for a moment.

"Here's one for you: Let's say there's a sick person over here and you can cure him. You can do it. Would you help him? Would you try?"

"Yes, sir. I would."

"So, you're good...!"

"I wouldn't say that."

"Why not say that? You would help a sick and maimed person if you could... In fact, most of us would if we could... God doesn't."

[No answer.]

"He doesn't, does he? My brother was a Muslim who died of cancer, even though he prayed to God to heal him. How is this God good? Hmm? Can you answer that one?"

[No answer.]

Dialogues of literary men. Dialogues of famous women. Miscellaneous dialogues Walter Savage Landor,1891 *On the Resurrection, Volume 1* Gary Habermas,2024-01-15 The first volume of Gary Habermas s magnum opus *On the Resurrection* Evidences represents the culmination of fifty years of research on the probability of Jesus s resurrection Using his minimal facts argument Habermas demonstrates why we ought to trust the biblical and historical testimony of Scripture regarding the resurrection This book is a must read for pastors students and scholars interested in the historical evidence for the resurrection of Jesus Christ *Hume's Dialogues Concerning Natural Religion* Kenneth Williford,2023-10-31 Explores and assesses Hume s *Dialogues on Natural Religion* from many angles history of philosophy religion science and epistemology Most books focus only on religion Outstanding line up of contributors including Simon Blackburn and other world leading philosophers and scholars of Hume Ken Williford s introduction does an excellent job of placing the *Dialogues* in context

Imaginary Conversations: Dialogues of literary men Walter Savage Landor,1891 **Dialogues on Free Will** Laura W. Ekstrom,2025-12-16 What kinds of conversations might take place when two intelligent and informed young people one a strong believer in free will and the other just as certain that we don t have it get together to discuss their viewpoints This new volume in the *Philosophical Dialogues on Contemporary Problems* series introduces both sides of this age old philosophical debate in a fun and accessible way Author and acclaimed philosopher Laura W Ekstrom has created Rosa and Leif two college students who each give voice to the strongest arguments in the most important debates about free will and moral responsibility Over the course of eleven days Rosa a strong defender of free will draws on her religious beliefs and her thoughts about love and meaning in human life Leif her equally informed and articulate interlocutor raises challenges to Rosa s points drawing on the latest research and ideas in neuroscience theology and social psychology Along the way they must carefully develop clear reasons for their positions while offering a fair hearing to alternative viewpoints and spurring readers to reach their own conclusions Working in a philosophical tradition established by Plato these dialogues are both philosophically substantive and provocative inviting readers to ponder issues that are fundamental to our understanding of the nature of choice responsibility and ourselves as human beings *Did Charles Bradlaugh Die an Atheist?* Hypatia Bradlaugh Bonner,1898 Atheists Nick Spencer,2014-05-08 The clash between atheism and religion has become the defining battle of the 21st century Books on and about atheism retain high profile and popularity and atheist movements on both sides of the Atlantic capture headlines with high profile campaigns and adverts However very little has been written on the history of atheism and this book fills that conspicuous gap Instead of treating atheism just as a philosophical or scientific

idea about the non existence of God Atheists The Origin of the Species places the movement in its proper social and political context Because atheism in Europe developed in reaction to the Christianity that dominated the continent s intellectual social and political life it adopted adapted and reacted against its institutions as well as its ideas Accordingly the history of atheism is as much about social and political movements as it is scientific or philosophical ideas This is the story not only of Hobbes Hume and Darwin but also of Thomas Aitkenhead hung for blasphemous atheism Percy Shelley expelled for adolescent atheism and the Marquis de Sade imprisoned for libertine atheism of the French revolutionary Terror and the Soviet League of the Militant Godless of the rise of the US Religious Right and of Islamic terrorism Looking at atheism in its full sociopolitical context helps explain why it has looked so very different in different countries It also explains why there has been a recent upsurge in atheism particularly in Britain and the US where religion has unexpectedly come to play such a significant role in political affairs This leads us to a somewhat paradoxical conclusion we should expect to hear more about atheism in the future for the simple reason that God is back
