Diary Of A Humiliated Man:

Diary of a Humiliated Man Félix de Azúa, 1996 *Diary of a Humiliated Man* presents 8 months in the life of a hopelessly banal individual told in the form of notebook entries **Sad Planets** Dominic Pettman, Eugene Thacker, 2024-03-28 Everything is sad wrote the Ancient poets But is this sadness merely a human experience projected onto the world or is there a gloom attributable to the world itself Could the universe be forever weeping the tears of things In this series of meditations Dominic Pettman and Eugene Thacker explore some of the key negative affects both eternal and emergent associated with climate change environmental destruction and cosmic solitude In so doing they unearth something so obvious that it has gone largely unnoticed the question of how we should feel about climate change Between the information gathered by planetary sensors and the simple act of breathing the air new unsettling moods are produced for which we currently lack an adequate language Should we feel grief over the loss of our planet Or is the strange feeling of witnessing mass extinction an indicator that the planet was never ours to begin with *Sad Planets* explores this relationship between our all too human melancholia and a more impersonal sorrow nestled in the heart of the cosmic elements Spanning a wide range of topics from the history of cosmology to the existential threat of climate change this book is a reckoning with the limits of human existence and comprehension As Pettman and Thacker observe never before have we known so much about the planet and the cosmos and yet never before have we felt so estranged from that same planet to say nothing of the stars beyond

The Making of Mr Gray's Anatomy Ruth Richardson,2009-10-08 Gray's Anatomy is probably one of the most iconic scientific books ever published an illustrated textbook of anatomy that is still a household name 150 years since its first edition known for its rigorously scientific text and masterful illustrations as beautiful as they are detailed The Making of Mr Gray's Anatomy tells the story of the creation of

this remarkable book and the individuals who made it happen Henry Gray the bright and ambitious physiologist poised for medical fame and fortune who was the book's author Carter the brilliant young illustrator lacking Gray's social advantages shy and inclined to religious introspection and the publishers Parkers father and son the father eager to employ new technology the son part of a lively circle of intellectuals It is the story of changing attitudes in the mid 19th century of the social impact of science the changing status of medicine of poverty and class of craftsmanship and technology And it all unfolds in the atmospheric milieu of Victorian London taking the reader from the smart townhouses of Belgravia to the dissection room of St George's Hospital and to the workhouses and mortuaries where we meet the friendless poor who would ultimately be immortalised in Carter's engravings Alongside the story of the making of the book itself Ruth Richardson reflects on what made Gray's Anatomy such a unique intellectual artistic and cultural achievement how it represented a summation of a long half century's blossoming of anatomical knowledge and exploration and how it appeared just at the right time to become the Doctor's Bible for generations of medics to follow *Every Day, Just Write* Satsvarupa dasa Goswami,1999 *Library Journal* ,1996-10
