Manual thoroughly updates this acclaimed work the single most comprehensive resource on California's amazingly diverse flora. This work integrates the latest science, the results of intensive fieldwork, institutional collaboration and the efforts of hundreds of contributing authors into an essential reference on California's native and naturalized vascular plants. For the first time the University of California Press is offering this resource as an e-book. The Digital Jepson Manual provides an unparalleled new level of interactivity, portability and convenience. Extensive linking and e-book friendly illustrations make it easier for users to learn about plant characteristics and identify the native and naturalized plants of California all in a format ideally suited for use in the field. Using readily available e-book readers, field researchers, students and enthusiasts can click on links to rapidly navigate through keys to families, genera, species and subspecies or varieties. Specific features of The Digital Jepson Manual include the following: Keys link forward and backward to other taxonomic levels; Plate references in taxonomic treatments link to plates for rapid reference; Plate captions link to taxonomic treatments; Individual taxon figures appear next to species descriptions and full plates are gathered in a special section; Glossary terms link to any relevant illustrations; List of families links each family to its taxonomic treatment; Index is fully linked to taxonomic treatments.

Alien Grasses of the British Isles T. B. Ryves, E. J. Clement, M. C. Foster, Douglas H. Kent, 1996 *Video-based Research in Education* Lihua Xu, George Aranda, Wanty Widjaja, David Clarke, 2018-11-09

The rapid development of video technology in the last decade has changed the ways in which people communicate, how they learn and how research is done. Video technology offers rich potential in capturing complex social interactions over a prolonged period of time and in supporting teacher professional learning and development. This book explores the ontological, epistemological, methodological and ethical challenges associated with the different uses of video in research, ranging from video as a tool for investigating social interactions and for stimulating participants' reflection to the use of video for engaging varied communities and social groups in the process of teaching, learning and research. Each chapter presents the authors' critical reflection on the ways in which video was employed, the research decisions made, the methodological challenges faced and the consequences for how educational practices were understood. As such, it illustrates a wide range of philosophical and theoretical standpoints with respect to video-based research approaches. This book will stimulate broad and rich discussion among education researchers who are interested in video research and contributes to advancing knowledge of the field, developing approaches to dealing with emergent ethical, theoretical and methodological issues and generating new protocols and guidelines for conducting video-based research across a variety of disciplinary areas in education.
