Impacts of Racism on White Americans In the Age of Trump Duke W. Austin, Benjamin P. Bowser, 2021-11-25 In this third iteration of the classic work *The Impacts of Racism on White Americans* 1981 1996 a new generation of scholars make the case that racism often negatively affects Whites themselves especially during the Trump era In 1981 *Impacts* introduced an alternative understanding of racism arguing that it went beyond white black and or inter race relations Instead the book proposed that the problem of race in the U S is fundamentally one of white identity and culture and that racism has substantial negative effects on White Americans This volume advances these propositions through three key areas 1 Trump era cultural and institutional racism bolstered by the use of historical notions of racial hierarchy 2 institutional and interpersonal racism which in turn drive individual racist behaviors and finally 3 racism s interactional sequences and how they impact anti racism efforts As each chapter author explores an iteration of these racisms they also explore how racist attitudes produce disadvantage among White Americans

Teaching African American Religions Carolyn M. Jones, Theodore Louis

Trost,2005-07-14 The variety and complexity of its traditions make African American religion one of the most difficult topics in religious studies to teach to undergraduates The sheer scope of the material to be covered is daunting to instructors many of whom are not experts in African American religious traditions but are called upon to include material on African American religion in courses on American Religious History or the History of Christianity Also the unfamiliarity of the subject matter to the vast majority of students makes it difficult to achieve any depth in the brief time allotted in the survey courses where it is usually first encountered The essays in this volume will supply functional innovative ways to teach African American religious traditions in a variety of settings *Introduction to Feminist Thought and Action* Menoukha Case,Allison Craig,2019-08-23

Prepare for a Bumpy Ride Many of our ideas about the world are based more on feelings than facts sensibilities than science and rage than reality We gravitate toward ideas that make us feel comfortable in areas such as religion politics philosophy social justice love and sex humanity and morality We avoid ideas that make us feel uncomfortable This avoidance is a largely unconscious process that affects our judgment and gets in the way of our ability to reach rational and reasonable conclusions By understanding how our mind works in this area we can start embracing uncomfortable ideas and be better informed be more understanding of others and make better decisions in all areas of life Some uncomfortable ideas entertained in this book Political correctness can be harmful Identity politics is a dangerous game Morality is functionally democratic Victims often do share some of the responsibility God is a far more horrifying character than Satan There is no such thing as freewill Americans are manipulated into being pro war Non whites can be racist and women can be sexist Some people do choose to be gay Sometimes the bad guys win Obese people are not perfect the way they are It s okay to find inappropriate jokes funny Facts don t care about feelings Science isn t concerned about sensibilities And reality couldn t care less about rage A bumpy ride indeed Whether one agrees or disagrees with the content it still manages to make one think critically about certain things and that is always a good thing What s more it is being presented in a non threatening clear balanced and objective way A great way to tackle uncomfortable ideas Very eye opening Making us question the things that make them uncomfortable and why is what we all need Love it **Do the Work!** W. Slavery Racism Genocide Joshua MacLean, quotes from the introduction TRUNC I have studied the subjects of Slavery Racism and Genocide off and on since 2000 I lost interest for some time until my passions were re ignited by current events leading to much reading on the subjects and many embittered arguments online It was 2016 three years after the formation of Black Lives Matter that I started researching the group in order to better understand their grievances and what they plan to accomplish and also the methods by which they use to achieve those ambitions I could have started and ended my research with the organization's web site however the Black Lives Matter movement is not an organization in the traditional sense of the word more of a loosely formed collaborative group as Black Lives Matter has no central leadership for this reason I centered my research on <https://twitter.com> and the BlackLivesMatter hash tag Riots arson vandalism looting in the streets acts of violence are these tolerable acts of civil disobedience Are they symptoms of the chronic social disease known as systemic racism In the mind's eye of the average Black Lives Matter supporter are these acts representative of the violent freeing of themselves from the shackles of white oppression Statistics news articles personal and historical accounts would all suggest that this is fact but in a nation such as the United States where freedom of speech is touted daily as a God given right by protestors and counter protestors alike nothing is free from the inquisitions of political discourse I will in the following sections address various issues that seem relevant to modern politics such as segregation and affirmative action as well as various claims that have been made about whites recently Individual arguments can only accomplish so much and I have reached that point so now it is time to express my thoughts on various issues in book form Some may consider this monologue a diatribe but I feel inspired to share my inner rumenations with you the reader Whether you love or hate this project this is for you and I hope that you give it a fair shot before dismissing it In *Slavery Racism Genocide The Big White Lie* I endeavor to tackle subjects related to three topics the very topics for which the text has been named I believed that a question answer format would be the best method to use in which to convey my rumenations on these matters My writing is

divided into three sections with questions in each section labeled A B C etc Each of my questions is related to various opinions and arguments related to the three topics The questions are not only related to different claims and arguments I have encountered on Twitter but also to recent events I address any specific issue by providing relevant information that will hopefully lead the reader to a more thorough understanding of each topic I hold no reservations towards subject matter as the most controversial subjects are actually the subjects that most often are the ones that need to be talked about one such example being the re institution of racial segregation within the United States
