Bull,Liv Lied,John D. Turner,2011-10-28 Mystery and secrecy were central concepts in the ritual rhetoric and sociological stratification of antique Mediterranean religions That the ultimate nature and workings of the divine were secret and either could not or should not be revealed except as a mystery for the initiated was widely accepted among Pagans Jews and then Christians both Gnostic and otherwise

The similarities and differences in the language of mystery and secrecy across religious and cultural borders are thus crucial for understanding this important period of the history of religions. The present anthology aims to present and analyze a wide selection of sources elucidating this theme reflecting the correspondingly wide scholarly interests of Professor Einar Thomassen in honor of his 60th birthday.

Gurdjieff and Music Johanna Petsche, 2015-02-04 In *Gurdjieff and Music* Johanna Petsche examines the large and diverse body of piano music produced by Armenian Greek spiritual teacher G. I. Gurdjieff c. 1866-1949 in collaboration with his devoted pupil Thomas de Hartmann 1885-1956. Petsche draws on a range of unpublished materials and data from original field research to critically situate and assess this music within its socio-cultural and unique religious-spiritual context. Focusing on the tremendous role that music played in the life and teaching of Gurdjieff, Petsche chronicles the unique relationship and collaboration between Gurdjieff and de Hartmann, analyses the styles and possible sources of their music, and explores Gurdjieff's ultimate intentions for the music in light of his esoteric teaching.

The Oxford Handbook of Tantric Studies Payne, 2023-11-15 Since the earliest encounters between tantric traditions and Western scholars, tantra has posed a challenge. Representation of tantra has tended to emphasize the antinomian, decadent aspects, which, as attention-grabbing as they were for Western audiences, hampered the study of the field. *The Oxford Handbook of Tantric Studies* is intended to overcome these obstacles, facilitating collaboration between scholars working on different forms of tantra and in different disciplines. With more than forty chapters and a global pool of contributors, the Handbook aims to be the definitive reference work in the field, exploring core topics such as action, transformation, embodiment, art, language, and social movements. The first chapter provides an overview of major issues confronting the field today, including debates regarding the definition and category of tantra, historical origins and dating, and recent developments in gender studies and tantra ethnography, and lived tantra and cognitive approaches to the study of tantra. Using a topical framework, the opening section explores the concept of action, one of the most prominent features of tantra, which includes performing rituals, practicing meditation, chanting, embarking on a pilgrimage, or reenacting moments from a sacred text. From there, the sections cover broad topics such as transformation, esoteriology, and healing; gender and embodiment; extraordinary beings, such as deities and saints; art and visual expressions; language and literature; social organizations; and the history and historiography of tantra.

Keywords: tantric studies, tantra, Buddhism, Hinduism, Jainism, ritual, esoteriology, meditation, embodiment, yoga.
