Lemmergaard, Sara Louise Muhr, 2013-01-01 All too frequently leadership is depicted as an unequivocal good. Lemmergaard and Muhr's excellent collection disabuses us of this misleading view, serving as a timely and salutary reminder that leadership is often emotionally charged, toxic, dysfunctional, or downright stupid. This book's critical message should be read and heeded by students and practitioners of leadership alike. Peter Case, James Cook University, Australia. The book provides a rich kaleidoscope of critical engagements with leadership in all its complexity and ambiguity. The contributors to this collection do not deny the vital role that leadership can play, nor the many ways in which it can affect the emotional dynamics of organizations for good and bad. What they do is to shift thinking away from the comforting but misleading simplicities of toxic leaders and inert followers, offering a welcome tonic to the critical study of leadership. The book will appeal to leadership scholars as well as to students and to reflective practitioners. Yiannis Gabriel, University of Bath, UK. This book offers a critique of the field of leadership studies, focusing on the dynamics between post-heroic leadership and the notion of functional and dysfunctional emotions. Situated in the field of critical leadership studies, the chapters of this book set out to challenge the general assumption that emotionality is the antithesis of rationality. The authors expand upon the existing discussions of leadership emotions and reveal how toxicity and dysfunctionality are not merely simple, negatively coercive or repressive phenomena but can also have productive and enabling connotations. The book includes comprehensive overviews of traditional leadership thinking and, in addition, provides readers with critical reflections on concepts such as ignorance, authenticity, functional stupidity, and vanity in leadership. As the book presents a series of critical perspectives on how emotions can be theorized in leadership studies, it is suitable for advanced courses in the subject as well as being a highly interesting monograph for academics in the field.

Reclaiming Higher Education's Purpose in Leadership

Development Kathy L. Guthrie, Laura Osteen, 2016-06-07 Gain a greater understanding of leadership learning programs across disciplines, pedagogies, and departments. This volume focuses on the collective and unique capacity in higher education to leverage and align university resources with leadership learning across college and university initiatives: why we should focus on reclaiming the purpose of higher education and embrace leadership development across disciplines; how we can do this; and what this may look like. And how we can assess this has happened. This is the 174th volume of the Jossey-Bass quarterly report series, *New Directions for Higher Education*. Addressed to presidents, vice presidents, deans, and other higher education decision makers on all kinds of campuses, it provides timely information and authoritative advice about major issues and administrative problems confronting every institution.
