Dictionnaire Fran Ais M Di Val Takeshi Matsumura:

Texts and Territories Hülya Taflı Düzgün, 2018-07-27 The writing of a literary text is as a retrospective explanation of what is happening in the present including social cultural religious and political events and is a deliberate re creation in actual practice The impact of immediate contemporary concerns places a literary text at least partly outside the author s control The author responds to a given context of historical and cultural incident that limits his freedom to invent adapt or explain Of these contemporary concerns the literary text is concerned first with how cultural practices and cultural changes helped to create it and second with what happens when specific historical events appear to model themselves on narrative structures and how those events can be given a conscious boost by narrative authors or patrons to make the parallels even closer History turns into literary narrative or literary narrative turns into history therefore literature and history live in each other s pockets The medieval texts that straddle the borderland between literature and history what has been called a medieval fashion for pseudo history have been repeatedly commented on over the years However the broader implications of this phenomenon for the modern understanding of medieval concepts of the past and historiography have been under explored This volume engages with the history and the literary narrative in Medieval England through a variety of approaches to an interdisciplinary array of texts ranging from Latin Old French Anglo Norman to Middle English between the eleventh and fifteenth centuries

Ethics in the Arthurian Legend Melissa Ridley Elmes, Evelyn Meyer, 2023 An interdisciplinary and trans historical investigation of the representation of ethics in Arthurian Literature From its earliest days the Arthurian legend has been preoccupied with questions of good kingship the behaviours of a ruling class and their effects on communities societies and nations both locally and in imperial and colonizing contexts Ethical considerations inform and are informed by local anxieties tied to questions of power and identity especially where leadership service and governance are concerned they provide a framework for understanding how the texts operate as didactic and critical tools of these subjects This book brings together chapters drawing on English Welsh German Dutch French and Norse iterations of the Arthurian legend and bridging premodern and modern temporalities to investigate the representation of ethics in Arthurian literature across interdisciplinary and transhistorical lines They engage a variety of methodologies including gender critical race theory philology literature and the law translation theory game studies comparative critical and close reading and modern editorial and authorial practices Texts interrogated range from Culhwch and Olwen to Parzival Roman van Walewein Tristrams Saga Sir Gawain and the Green Knight and Malory s Morte Darthur As a whole the approaches and findings in this volume attest to the continued value and importance of the Arthurian legend and its scholarship as a vibrant field through which to locate and understand the many ways in which medieval literature continues to inform modern sensibilities and institutions particularly where the

matter of ethics is concerned **The Life of Saint Eufrosine** ,2021-03-01 As a young woman from a wealthy family Eufrosine was expected to marry a nobleman Instead she wanted to serve God So she cut her hair dressed as a man and traveled to a monastery becoming a monk named Emerald Adapted from a Latin source this saint s life dates to about 1200 CE Devout yet erotic lyrical yet didactic it blends hagiography with romance and epic in order to engage and inspire a broad audience The tale invites readers to rethink preconceived notions of the Middle Ages the relation between spiritual and secular values and ideas about the history of sexuality identity and family Only fragments of the poem have been previously translated This edition includes the first full translation alongside the Old French original as well as a glossary and other supporting material **A Guide to Old Spanish** Steven N. Dworkin,2018-07-12 This book is a general introduction to the structures of the different medieval Romance vernaculars most commonly known as Old or Medieval Spanish as preserved in texts from Spain from the eleventh to the fifteenth centuries After discussing general methodological questions concerning the description and analysis of an earlier historical stage of a modern language the individual chapters in the first part of the book describe the orthography phonetics and phonology morphology syntax and vocabulary of medieval Hispano Romance Steven N Dworkin offers the first systematic description of the language in English and compares its structures with those found in the modern variety In the second part of the book the features of medieval Hispano Romance are exemplified in an anthology of selected texts one from each of the thirteenth fourteenth and fifteenth centuries accompanied by linguistic commentary The volume will be of interest to scholars and students of Romance linguistics Spanish historical linguistics and Spanish medieval literary and cultural studies Taming Capitalism before its Triumph Koji Yamamoto,2018-04-20 This study examines the darker side of England s culture of economic improvement between 1640 and 1720 It is often suggested that England in this period grew strikingly confident of its prospect for unlimited growth Indeed merchants inventors and others promised to achieve immense profit and abundance Such flowery promises were then as now prone to perversion however This volume is concerned with the taming of incipient capitalism how a society in the past responded when promises of wealth creation went badly wrong It reveals a history of numerous visible hands taming incipient capitalism a story that Adam Smith and his admirers have long set aside The notion of projecting played a key role in this process Thriving theatre literature and popular culture in the age of Ben Jonson began elaborating on predominantly negative images of entrepreneurs or projectors as people who pursued Crown s and their own profits at the public s expense This study examines how the ensuing public distrust came to shape the negotiation in the subsequent decades over the nature of embryonic capitalism The result is a set of fascinating discoveries By scrutinising greedy projectors the incipient public sphere helped reorient the practices and priorities of entrepreneurs and statesmen away from the most damaging of rent seeking behaviours Far from being a recent response to mainstream capitalism ideas about socially responsible business have long shaped the pursuit of wealth power and profit Taming Capitalism before its Triumph unravels the rich history of

broken promises of public service and ensuing public suspicion a story that throws fresh light on England's transition to capitalism especially the emergence of consumer society and the financial revolution towards the end of the seventeenth century *Dictionnaire étymologique de l'ancien français* [par] Kurt Baldinger avec la collaboration de Jean-Denis Gendron et Georges Straka Frankwalt Möhren, 1974 Dictionnaire étymologique de l'ancien français Kurt Baldinger, Frankwalt Möhren, 2007 **International Medieval Bibliography** , 1996 Jourdain de Blaye en alexandrins Takeshi Matsumura, 1999
