Criminal Subculture in the Gulag Mark Vincent, 2020-05-14 Despite growing academic interest in the Gulag our knowledge of the camps as a lived experience remains relatively incomplete Criminal Subculture in the Gulag in its sophisticated analysis of crime punishment and everyday life in Soviet labour camps rectifies this From Gulag journals and song collections to tattoo drawings and dictionaries of slang Mark Vincent draws on often overlooked archival material from the Moscow Criminological Bureau to reconstruct a fuller picture of Gulag daily life and society In thematic chapters Vincent maps the Gulag penal arc of prisoners across initiation tests means of communication the importance of card playing punishment rituals and the notorious 1948 52 cyka bitches internal prison war between military veterans and vory v zakone Most importantly this timely examination of crime and punishment in modern Russia also highlights the lines of continuity between the Gulag systems late Imperial Katorga and today's Russian mafia As such this impressively

interdisciplinary volume is important reading for all scholars of 20th century Russia as well as those interested in international criminality and penology

The Lost Pianos of Siberia Sophy Roberts, 2020-08-04 This melodious mix of music history and travelogue reveals a story inextricably linked to the drama of Russia itself These pages sing like a symphony The Wall Street Journal Siberia's story is traditionally one of exiles penal colonies and unmarked graves Yet there is another tale to tell Dotted throughout this remote land are pianos grand instruments created during the boom years of the nineteenth century as well as humble Soviet made uprights that found their way into equally modest homes They tell the story of how ever since entering Russian culture under the westernizing influence of Catherine the Great piano music has run through the country like blood How these pianos traveled into this snowbound wilderness in the first place is testament to noble acts of fortitude by governors adventurers and exiles Siberian pianos have accomplished extraordinary feats from the instrument that Maria Volkonsky wife of an exiled Decembrist revolutionary used to spread music east of the Urals to those that brought reprieve to the Soviet Gulag That these instruments might still exist in such a hostile landscape is remarkable That they are still capable of making music in far flung villages is nothing less than a miracle The Lost Pianos of Siberia follows Roberts on a three year adventure as she tracks a number of instruments to find one whose history is definitively Siberian Her journey reveals a desolate land inhabited by wild tigers and deeply shaped by its dark history yet one that is also profoundly beautiful and peppered with pianos An elegant and nuanced journey through literature through history through music murder and incarceration and revolution through snow and ice and remoteness to discover the human face of Siberia I loved this book Paul Theroux

Narratives of Annihilation, Confinement, and Survival Anja Tippner, Anna Artwińska, 2019-05-20 The concept of camp narratives rather than Holocaust narratives or Gulag narratives is based on the assumption that literary accounts of camp experiences share common traits aesthetically as well as thematically The book presents readings of camp literature that underscore the similarities between texts about Soviet gulag camps Nazi camps and about other camp experiences While literature about Nazi concentration camps still serves as a point of reference for camp narratives in the same way that the Holocaust serves as a point of reference for other genocidal operations socialist labor and penal camps have become transnational lieux de mémoire in their own right since 1989 This volume intends to provide a theoretical frame as well as an overview of several important European camp literatures and case studies of iconic camp narratives and to take a comparative and transnational perspective on the genre of the camp narrative

World Histories From Below Antoinette Burton, Tony Ballantyne, 2016-09-08 An emphasis on global structures and forces tends to privilege elites and their accomplishments especially in the grand narratives of student textbooks This book is an antidote to such studies and places ordinary people and subordinated subjects at the heart of its analysis arguing that disruption and dissent are overlooked agents of historical change The contributors range from leaders in the field to rising stars and cover themes including religious conversions political revolutions labor struggles body politics Each chapter takes a global view of the topic at hand creating an accessible study of its subject from 1750 to the present day *World Histories From Below* has the potential to refocus our entire approach to teaching world history

Between the Wars Philip Ziegler, 2016-10-06 At the end of 1918 one prescient American historian began to write a history of the Great War What will you call it he was asked The First World War was his bleak response In *Between the Wars* Philip Ziegler examines the major international turning points cultural and social as well as political and military that led the world from one war to another His approach is panoramic touching on all parts of the world where history was being made examining Gandhi's March to the Sea and the Chaco War in South America alongside Hitler's rise to power It is the tragic

story of a world determined that the horrors of the First World War would never be repeated yet committed to a path which in hindsight was inevitably destined to end in a second even more devastating conflict Each chapter bears the unmistakable stamp of Ziegler's scholarship a keen eye for the telling anecdote elegant and fluid prose and calm and fair judgments In a world that grows ever more uncertain its perspective on how hopes of peace can dissolve into the promise of war becomes more relevant with each passing day
