**Legion Condor** Patrick Laureau, 2000 The Spanish Civil War was not just a tragedy for Spain acting as a focus for all the different political philosophies which had simmered throughout the Thirties it served as the proving ground for Italian Soviet and German military theorists It was here that the first clash between the dictators Hitler Mussolini and Stalin took place albeit by proxy It was here that the concept of Blitzkrieg was first tried out by the German volunteers of the Legion Condor which formed a major air component of the Spanish rebel forces This was a revolutionary all arms formation self contained and always controlled by airmen Here the likes of Galland Molders and Trautloft earned their spurs Here too the Bf 109 He 111 Do 17 and the infamous Ju 87 had their baptism of fire It was in effect the opening rounds of World War II Using much new previously undiscovered source material this study looks in detail at the men machines and units which formed the Legion Condor

**The Legion Condor** Karl Ries, Hans Ring, 1992 This classic book now makes its first appearance in English Long out of print this study is one of the few books dedicated to the history of the infamous Legion Condor the German volunteer unit that fought with pro Franco forces during the Spanish Civil War from 1936 1939 Many of the tactics and strategies of the Luftwaffe were first formulated and used during operations in Spain Also various aircraft were tested and used such as the famous Ju 87 Do 17 He 111 and Bf 109 all stalwarts of the later Luftwaffe during World War II Many Luftwaffe pilots received combat training in Spain Werner Molders and Adolf Galland first earned their wings as members of the Legion Condor Renowned Luftwaffe experts Karl Ries and Hans Ring have brought together over 480 photographs including aerial reconnaissance photos detailed unit insignia and action shots The history of the Legion Condor is discussed in great detail including the many personalities thorough battle analysis and technical aspects of the weaponry The result is a superb historical study of the early Luftwaffe Karl Ries is the author of many books on the Luftwaffe including Luftwaffe Rudder Markings 1936 1945 with Ernst Obermaier available from Schiffer Military History Hans Ring is co author with Werner Girbig of a unit history of JG 27

**Legion Condor 1936-39** James S. Corum, 2020-04-30 The bombing of Guernica has become a symbol of Nazi involvement in the Spanish Civil War but the extent of the German commitment is often underestimated The Luftwaffe sent 20 000 officers and men to Spain from 1936 to 1939 and the Condor Legion carried out many missions in support of the Spanish Nationalist forces and played a lead role in many key campaigns of the war Aircraft that would play a significant role in the combat operations of World War II the Heinkel 11 bomber the Me 109 fighter and others saw their first action in Spain fighting against the modern Soviet fighters and bombers that equipped the Republican Air Force Condor Legion bombers attacked Republican logistics and transport behind the lines as well as bombing strategic targets German bombers and fighters provided highly effective close air support for the front line troops and German fighters and anti aircraft units ensured Nationalist control of the air The experience garnered in Spain was very important to the development of the Luftwaffe The war allowed them to hone and develop their tactics train their officers and to become the

most practised air force in the world at conducting close support of ground troops In effect the Spanish Civil War proved to be the training ground for the Blitzkrieg which would be unleashed across Europe in the years that followed In this rigorous new analysis Legion Condor expert James Corum explores both the history and impact of the Luftwaffe's engagement during the Spanish Civil War and the role that engagement played in the development of the Luftwaffe strategy which would be used to such devastating effect in the years that followed
