Chipotle Yorkville II:

New York ,2007 Chipotle Mexican Grill Russell Walker,Greg Merkley,2017 By any measure Chipotle Mexican Grill was a success story in the restaurant business It grew from one location in 1993 to over 2 000 locations by 2016 and essentially created the fast casual dining category Its stock appreciated more than 1 000% in the ten years following its 2006 IPO However after more than 20 years without a major reported food safety incident Chipotle was revealed as the source of multiple outbreaks of illness from norovirus salmonella and E coli that sickened nearly 600 people in 13 states in 2015 The company closed stores spent several months under investigation by the U S Centers for Disease Control and Prevention CDC and other health organizations and faced a criminal investigation in connection with the incidents After a much publicized closing of all of its stores on February 8 2016 and numerous changes to its food sourcing and preparation practices Chipotle tried to win back customers with dramatically increased advertising and free food promotions However on April 26 the chain announced its first ever quarterly loss as a public company Same store sales for the first quarter were 29.7% lower than in the previous year Operating margins fell from 27.5% to 6.8% over the same period and the company's share price was down 41% from its summer 2015 high A case study of Chipotle Mexican Grill. In late 2015, Chipotle Mexican Grill experienced a large-scale food safety crisis. The company's restaurants were identified as the source of an E. coli outbreak that affected 14 states and led to more than 20 hospitalizations. Known for its Food With Integrity initiative and having experienced a decade of explosive growth, the company's livelihood was being threatened by the design of its own supply chain. Customers were scared and the issue had attracted the attention of investors, regulators, and the national news media. Chipotle needed to respond. Chipotle Mexican Grill's Food Crisis Conundrum Jessica C. Murray, Hyun Jeong Kim, 2020. Chipotle Mexican Grill is a popular quick-service style restaurant chain which specializes in Mexican-style food. The first Chipotle was opened in 1993 by Chef Steve Ells in Denver, Colorado. Chipotle rapidly expanded and currently has more than 2,000 locations across the United States. According to their website, Chipotle is proud to utilize fresh ingredients and serve good food fast instead of fast food. Chipotle is a publicly traded company and was first introduced to the market in 2005. In late August and early September 2015, Chipotle experienced a Norovirus outbreak in Boston as well as a Salmonella outbreak in California. Although these initial food crises received media coverage, they did not appear to cause a drastic drop in Chipotle's stock values. However, just a few months later, in late October, there was a widespread outbreak of E. coli O26. Cases related to this outbreak were found in Washington, Oregon, California, Delaware, Kentucky, Maryland, Minnesota, and Oregon. The majority of cases were centered in Washington and Oregon, but genetic testing by the Centers for Disease Control and Prevention (CDC) showed that all cases were related. A total of 55 illnesses were reported for this outbreak, 21 of which required hospitalization. CDC, 2016. In early November, Chipotle voluntarily closed all 43 restaurants in the Seattle and Portland market areas in reaction to the outbreak. Signs were posted on the doors of each location notifying customers of the closures. All restaurants reopened by the end of November. Peterson, 2015. Washington State Department of Health, 2015. Centers for Disease Control and Prevention, 2016. U.S. Food and Drug Administration, 2016.
