Christ In Evolution Ilia Delio,2010 **The Evolution of Christianity** Lyman Abbott,1925 **Christianity and Evolution** George Matheson,1887 *Christianity and Evolution* Pierre Teilhard de Chardin,2017-11-01 The author of *The Phenomenon of Man* reconciles passionate faith with the rigor of scientific thinking With his unique background as a geologist paleontologist and Jesuit priest Pierre Teilhard de Chardin was a powerful exponent of the view that scientific theories could comfortably coexist with religious faith To this day his ideas provoke passionate debates in communities that view science and faith as necessarily separate ideologies In this collection of nineteen essays Teilhard seeks to illuminate a middle ground between science and religion that he felt both disciplines could accept He explores the Fall and original sin the possibility of life on other planets and the role that God may have played in the process of human evolution successfully challenging contemporary theologians to rethink their views of the universe and its creation Like other great visionary poets Blake Hopkins Yeats Teilhard engages the reader both intellectually and sensually The Washington Post Book World An excellent blend of theological speculation with practical or ascetical application Catholic Telegraph *Christianity in Evolution* Jack Mahoney,2011-08-01 Evolution has provided a new understanding of reality with revolutionary consequences for Christianity In an evolutionary perspective the incarnation involved God entering the evolving human species to help it imitate the trinitarian altruism in whose image it was created and counter its tendency to self absorption Primarily however the evolutionary achievement of Jesus was to confront and overcome death in an act of cosmic significance ushering humanity into the culminating stage of its evolutionary destiny the full sharing of God s inner life Previously such doctrines as original sin the fall sacrifice and atonement stemmed from viewing death as the penalty for sin and are shown not only to have serious difficulties in themselves but also to emerge from a Jewish culture preoccupied with sin and sacrifice that could not otherwise account for death The death of Jesus on the cross is now seen as saving humanity not from sin but from individual extinction and meaninglessness Death is now seen as a normal process that affect all living things and the religious doctrines connected with explaining it in humans are no longer required or justified Similar evolutionary implications are explored affecting other subjects of Christian belief including the Church the Eucharist priesthood and moral behavior

Christ in Evolution Ilia Delio,2008 Ilia Delio goes beyond the debate on evolution and intelligent design to reveal the Christ who is at the center of our lives in a complete universe She draws on mystics and theologians to locate the love of God at the heart of a total redemptive process not just physical but cosmic cultural spiritual and taking place in human consciousness Along the way she offers surprising insights on issues such as artificial intelligence technology the search for extraterrestrial life and most of all the meaning of Christ in our lives and our role as co creators Christ in Evolution is not an argument but a way of seeing the universe and our place in it with a vision that is ancient but ever new *Christ and Evolution* George A. Barton,2017-01-30 No detailed description available for Christ and Evolution **The Evolution of**

Faith Thomas R. McFaul, Al Brunsting, 2021-07-21 A new understanding is developed in this book about the relationship between the Christian faith, modern science and the world religions. The authors call their new position Evolutionary Pluralism. By combining the Christian faith with modern science and the global growth of religious diversity, Evolutionary Pluralism provides Christians with an alternative to current interpretations such as Young Earth Creationism, Old Earth Creationism, Intelligent Design Creationism, and Evolutionary Creationism. This new understanding stands solidly within the history and traditions of the Christian faith and builds on the life and ministry of Jesus Christ. Christians and Evolution

Bob Peters, 2019-07-13 In the April edition 2019 of the magazine Christianity Today I saw charts that gave the percentage of Christians who believe in some form of evolution. I was surprised I wrote this book to answer a question that I think Christians should ask. The book's title is Christians and Evolution. The subtitle is Most Christians Think Evolution and Christianity are Compatible. What Did Jesus, Paul, Peter, and John Say? What Does the Fine Tuning of the Universe Say? I used the word most because 75% of Christians in the US believe in evolution, 58% said God had a role in the evolution, and 17% said God had no role. I projected the US statistic world wide. What did Jesus say and believe? We know Jesus believed in the Genesis account of creation because when he was asked about divorce he went to the creation story. He quoted from Genesis 1:27 and said, 'Haven't you read that at the beginning the Creator made them male and female. Then he said, For this reason a man will leave his father and mother and be united to his wife, and the two will become one flesh. Therefore what God has joined together, let man not separate.' Matthew 19:4-6. He was quoting from Genesis 2:24. He used that first marriage which was between Adam and Eve as the example that sets precedence for all other marriages. It is obvious that Jesus believed in creation. He never said anything about evolution. We also know Jesus believed in the Genesis account of creation because he spoke about Abel. Abel was Adam and Eve's second son. Jesus mentioned Abel because he was the first martyr. He was killed by his older brother Cain. So Jesus believed that the first biblical family was made up of Adam and Eve and Cain and Abel. Later Seth and more children were born. Jesus never said Adam was the first person in the long line of evolution that looked more like a man than a gorilla. It is obvious that people who believe in evolution and call themselves Christians are not paying attention to what Jesus thought and taught. I would hate to stand before Jesus at the judgment day and have him accuse me and say, 'Bob, you unwittingly called me an ignorant liar by saying things that are opposite to what I said.' What did Paul say? Paul said in Romans 5:12 that sin and death entered the world through one man. He named Adam twice as that one man. He said, 'One man, Adam, brought condemnation. One man, Jesus Christ, brought justification.' 5:16. It is obvious that the Apostle Paul believed the Genesis account of creation and the fall of mankind through the sin of Adam and the salvation of mankind through Jesus Christ. What did Peter say? In 1 Peter 1:19-20 he said Christ was chosen before the creation of the world to redeem us with his precious blood. John starts his Gospel with 'In the beginning, just like Genesis 1:1 starts the Bible. He said about Jesus Christ, 'Through him all things were made; without him nothing was made.' 1:3. So John believes in creation. He believes Jesus Christ

was the Creator Does he say anything about evolution No I think evolution would have been a very strange concept to him Nowhere in the Bible is evolution mentioned Evolutionist make wild guesses using millions and billions of years Creationist have the Bible It has genealogies going back to Adam so we know where we came from Genesis 5 gives the names of the fathers and how old the fathers were when the sons were born If we add up those dates we know that it was 1 658 years from the creation of Adam to the flood in Noah s time In Genesis 11 we have another genealogy with dates If we add those dates we get 260 years The total years from the creation of Adam to the birth of Abraham is 1 918 years We have a written account of where and when we started I wrote about the fine tuning of the universe There are at least 200 places where the Universe is fine tuned The fine tuning indicates a designer God

The Emergent Christ Ilia Delio, 2011 Ilia Delio makes fascinating sense of the universe beginning with the story of cosmic evolution coursing through the meaning of God in evolution and the emergence of Christ and concluding with new ways of seeing Christ in all things As Teilhard de Chardin did in *The Divine Milieu* Ilia Delio reveals the sacrament of God at work in the world She also explores the spiritual evolution within each of us and suggests that it will change the cosmos as well as the church She shows that we are at a stage in evolution where our choices will determine what happens next Love she writes always seeks the best for the beloved but God is a beggar of love who waits at the soul s door without daring to force it open The question of Christ emerging as the personal center of the universe is not a question of yes or no but a question of how that love will evolve She makes one thing perfectly clear it is happening and the evidence is astounding *The Emergent Christ* is an antidote to the new atheism that says there is no place in evolution for God let alone a God of love It is also a spiritual tonic for Christians interested in understanding their place and purpose in this evolving universe
