Christianity Islam And Liberal Democracy Lessons From Sub Saharan Africa:

Christianity, Islam and Liberal Democracy Robert Alfred Dowd, 2015 Based on research conducted in Nigeria and other parts of sub Saharan Africa Christianity Islam and Liberal Democracy argues that Christian and Islamic religious communities become more conducive to actions and attitudes conducive to and compatible with liberal democracy in religiously diverse and integrated settings than in religiously homogeneous or diverse but segregated settings

Christianity, 2015 *Christianity, Islam, and Liberal Democracy* Robert A. Dowd, 2015-06-01 Drawing from research conducted in Nigeria Senegal and Uganda Christianity Islam and Liberal Democracy offers a deeper understanding of how Christian and Islamic faith communities affect the political attitudes of those who belong to them and in turn prospects for liberal democracy While many analysts believe that religious diversity in developing countries is an impediment to liberal democracy Robert A Dowd concludes just the opposite Dowd draws on narrative accounts in depth interviews and large scale surveys to show that Christian and Islamic religious communities are more likely to support liberal democracy in religiously diverse and integrated settings than in religiously homogeneous or segregated ones Religious diversity and integration in other words are good for liberal democracy In religiously diverse and integrated environments religious leaders tend to be more encouraging of civic engagement democracy and religious liberty By providing a theoretical framework for understanding when and where Christian and Islamic communities in sub Saharan Africa encourage and discourage liberal democracy Dowd demonstrates how religious communities are important in affecting political actions and attitudes This evidence the book ultimately argues should prompt policymakers interested in cultivating religiously inspired support for liberal democracy to aid in the formation of religiously diverse neighborhoods cities and political organizations

Religious Freedom in Islam Daniel Philpott, 2019-02-01 Since at least the attacks of September 11 2001 one of the most pressing political questions of the age has been whether Islam is hostile to religious freedom Daniel Philpott examines conditions on the ground in forty seven Muslim majority countries today and offers an honest clear eyed answer to this urgent question It is not however a simple answer From a satellite view the Muslim world looks unfree But Philpott shows the truth is much more complex Some one fourth of Muslim majority countries are in fact religiously free Of the other countries about forty percent are governed not by Islamists but by a hostile secularism imported from the West while the other sixty percent are Islamist The picture that emerges is both honest and hopeful Yes most Muslim majority countries are lacking in religious freedom But Philpott argues the Islamic

tradition carries within it seeds of freedom and he offers guidance for how to cultivate those seeds in order to expand religious freedom in the Muslim world and the world at large It is an urgent project Religious freedom promotes goods like democracy and the advancement of women that are lacking in the Muslim majority world and reduces ills like civil war terrorism and violence Further religious freedom is simply a matter of justice not an exclusively Western value but rather a universal right rooted in human nature Its realization is critical to the aspirations of religious minorities and dissenters in Muslim countries to Muslims living in non Muslim countries or under secular dictatorships and to relations between the West and the Muslim world In this thoughtful book Philpott seeks to establish a constructive middle ground in a fiery and long lasting debate over Islam

The Palgrave Handbook of Christianity in Africa from Apostolic Times to the Present Andrew Eugene Barnes, Toyin Falola, 2024-03-07 This comprehensive Handbook provides chapter length surveys of the history of Christian missions and Christian churches on the African continent since the time of Christ Africa is rapidly becoming the most Christianized region of the world While common narratives about Christianity tend to present Christianity as a set of ideas and beliefs imposed on Africa from the outside such narratives hold little meaning for African Christians or for those seeking to understand Christianity in Africa as an indigenous faith The aim of the Handbook is to propose a set of scholarly starting points for a new set of narratives The chapters collected here communicate an idea of Christianity as it has been embraced among African peoples at particular historical moments It therefore grants voice to the various strands of African Christianity on their own terms and offers scholarly study of what these voices teach us about how the world's most adhered to religion is practiced and understood on the continent of Africa

From Pews to Politics Gwyneth H. McClendon, Rachel Beatty Riedl, 2019-11-14 Using Christianity in Africa this book demonstrates that cultural influences specifically religious sermons can impact political participation
