## **Christianity And The State:**

**Christianity and the State** William Temple,1928      *Christianity and the State* R. J. Rushdoony,2009-11-18 By virtue of being King of kings and Lord of lords Christ's reign over man and government is universal and total He removeth kings and setteth up kings Dan 2 21 and increaseth the nations and destroyeth them Job 12 23 because the government is on His shoulders He is the governor among the nations Isa 9 7 Ps 22 28 The need today is for the church to press the crown rights of Christ the King confident that His government over all will increase without end the zeal of the Lord of Hosts will perform this This powerful volume sets forth a Biblical theology of the state tracing in detail the history and consequences of both statist domination and Christian dereliction of duty By firmly establishing the Biblical alternative to modern Christianity's polytheism the author alerts us to the pitfalls of the past and provides Godly counsel for both the present and future The crystallization of decades of research *Christianity and the State* is a landmark volume of 20th century Christendom

*Christians, the State, and War* Gordon L. Heath,2022-03-14 In *Christians the State and War An Ancient Tradition for the Modern World* Gordon Heath argues that the pre Constantinian Christian testimony regarding the state's just use of violence was remarkably uniform and that it was arguably a catholic or universal tradition More specifically that tradition had five interrelated and intertwined constitutive areas of consensus that can best be understood as parts of one collective tradition Heath further argues that those five related areas of an early church tradition shaped all subsequent theological developments on views of the state its use of violence and the conditions of Christian participation in said violence Whereas the sorry and sordid instances in the church's history related to violence were times when the church drifted from those convictions of consensus the cases when Christians had a more stellar record of responding to the horrors of the world were times when they lived up to them Consequently the way forward today is for Christians to forgo beginning with the just war pacifist debate and instead to begin by letting their views on war and peace be shaped by that ancient tradition

*Christianity and the State* Rousas John Rushdoony,1986      **A Discourse of the Right of the Church in a Christian State** Herbert Thorndike,1841      **A Discourse of the Right of the Church in a Christian State. (A Review.)** Herbert Thorndike,1841      **Christianity and Politics** C. C. Pecknold,2010-08-06 It is not simply for rhetorical flourish that politicians so regularly invoke God's blessings on the country It is because the relatively new form of power we call the nation state arose out of a Western political imagination steeped in Christianity In this brief guide to the history of Christianity and politics Pecknold shows how early Christianity reshaped the Western political imagination with its new theological claims about eschatological time participation and communion with God and neighbor The ancient view of the Church as the mystical body of Christ is singled out in particular as the author traces shifts in its use and meaning throughout the early medieval and modern periods shifts in how we understand the nature of the person community and the moral conscience that would give birth to a new relationship between Christianity and politics While we have many accounts

of this narrative from either political or ecclesiastical history we have few that avoid the artificial separation of the two This book fills that gap and presents a readable concise and thought provoking introduction to what is at stake in the contentious relationship between Christianity and politics

**State-Religion Relationships and Human Rights Law** Jeroen Temperman, 2010-05-17 This book examines the question of how the mode of state religion identification affects the state's scope for compliance with human rights law It presents a human rights based assessment of the various modes of state religion identification and of the various forms of state practice that surround and characterize these different state religion models A close assessment of norms of human rights law substantiates that although human rights law on the face of it is seemingly neutral to the issue of state religion identification legal principles can be extrapolated that have a profound bearing on the question of legitimacy of the possible diverse relationships that may exist between the state and religion A range of thematic case studies on among other issues Establishment of Religion the Equal Religious Rights of Others Religion Freedom of Expression Religion Political Rights Religion Educational Rights Religion Freedom of Association and Religion Equal Employment Opportunities demonstrates that existing regimes of positive state identification with religion are not devoid of forms of institutionalised discrimination and de facto practices of discrimination on grounds of religion or belief or lack thereof At the same time it is observed by the author that in some secular or separationist states the ideals of state secularism and separationism have come to be considered ends in themselves This has given rise to situations where the principles of secularism and separationism are construed so as to impose illegitimate limits on the activities of religions or illegitimate limits on the individual manifestation of certain beliefs This book makes a case for the recognition of a state duty to remain impartial with respect to religion or belief in all regards so as to comply with people's fundamental right to be governed at all times in a religiously neutral manner

**The Christian State** George Davis Herron, 1895 Church, State, and Citizen Sandra Fullerton Joireman, 2009 Christians are often portrayed as sharing the same political opinions and the same theological foundations for their actions Yet from the time of the early church believers have held a variety of perspectives on the relationship between church and state and what constitutes legitimate political behavior for Christian citizens Thoroughly Christian political beliefs run the gamut from disavowal of any political responsibility to a complete endorsement of government policies and the belief that the state has been divinely appointed In *Church State and Citizen* Sandra F Joireman has gathered political scientists to examine the relationship between religion and politics as seen from within seven Christian traditions Catholic Lutheran Reformed Anabaptist Anglican Evangelical and Pentecostal In each chapter the historical and theological foundations of the tradition are described along with the beliefs regarding the appropriate role of the state and citizen While all Christian traditions share certain beliefs about faith e g human sin salvation Christ's atonement and political life e g limited government human rights the incompleteness and partiality of all political action there are also profound differences The authors discuss the contemporary implications of these beliefs both in the

United States and in other areas of the world where Christianity is showing increasing vigor
