Green Giants E. Williams, 2015-08-12 What do Brazil's top beauty brand America's second fastest growing restaurant chain and the world's third bestselling car have in common besides achieving enormous success with revenue in the tens of billions? They are doing it all while holding to their convictions of implementing sustainable principles that help consumers live better lives. But they aren't the only ones. Green Giants examines nine companies including Chipotle, Toyota, Unilever, Tesla, General Electric, and more who have established the blueprint for sustainable success that anyone can follow. Author Freya Williams, an early pioneer of the modern sustainable business movement, discovered six factors responsible for the overwhelming success of these nine socially responsible companies: The Iconoclastic Leader, Disruptive Innovation, A Higher Purpose, Built In, Not Bolted On, Mainstream Appeal, New Behavioral Contract. Packed with eye-opening research, exclusive interviews, and enlightening examples, Green Giants serves as your blueprint for merging wild profitability with social responsibility.

Forked Saru Jayaraman, 2016-01-14 A restaurant critic can tell you about the chef. A menu can tell you about the farm-sourced ingredients. Now who's going to tell you about the people preparing your meal? From 2015 James Beard Leadership Award winner Saru Jayaraman, *Forked* is an enlightening examination of what we don't talk about when we talk about restaurants: Is the line cook working through a case of stomach flu because he doesn't get paid sick days? Is the busser not being promoted because he speaks with an accent? Is the server tolerating sexual harassment because tips are her only income? As most corporate restaurants continue to set low standards for worker wages and benefits, a new class of chefs and restaurateurs is working to foster sustainability in their food and their employees. *Forked* offers an insider's view of the highest and lowest scoring restaurants for worker pay and benefits in each sector of the restaurant industry and with it a new way of thinking about how and where we eat.
