Describing the Unobserved and Other Essays Ann Banfield,2018-11-30 The seven essays gathered in this volume are all concerned more or less directly with the unspeakable sentences of fictional narration that is the sentences that do not bear any explicit mark nor any implicit indication of a first person and which are not interpretable as the expression of a speaker's subjectivity Chief among them are the sentences of free indirect style which this book prefers to call sentences of represented speech and thought All of these essays were written after the publication of *Unspeakable Sentences Narration and Representation in the Language of Fiction* 1982 They take up its theoretical frameworks and extend its analyses into other contexts where they acquire other uses other functions and other values Taken as a whole this work bears witness to the richness and vitality of the encounter between linguistics philosophy and the theory and analysis of narrative and the novel
