Marx and Engels into Marathi to personal endeavours such as the first Hindi translation of Goethe's Faust done by Bholanath Sharma in 1939. Missionary as well as Marxist activist translation work from Malayalam, Tamil and Telugu is included too. On the other hand, German translations of Tagore and Gandhi, setting in shortly after 1912, are also examined. Also discussed are political strategies of publication of translations from modern Indian languages guiding the output of publishing houses in the GDR after 1949. Further included are the translator's perspective and the contemporary translation and literary culture. What happens through the process of linguistic translation in the realm of cultural translation? What can a historical study of translation tell us about the history of Indo-German intellectual entanglements in the long twentieth century? The volume brings together multifaceted interdisciplinary research work from South Asian and German studies to answer some of these questions.

A Dictionary of Hymnology. Setting Forth the Origin and History of Christian Hymns of All Ages and Nations. Ed. John Julian, 1908.

Songs as Locus for a Lay Theology Philip K. Mathai, 2019-02-07. Hymns and songs have long been the most frequent and characteristic expression of communal beliefs, particularly among faith traditions that lack authoritarian or rigidly codified doctrinal statements. Even among Christian traditions that do include a strong focus on creeds, catechism, and liturgy, it is hymnody more than anything else that sustains their lay theology. The hymns of Moshe Walsalam Sastriyar (1847-1916) and Sadhu Kochukunju Upadeshi (1883-1945), both from the Kingdom of Travancore in southwest India, transcend denominational boundaries and have been embraced far beyond their historical communities of origin as a means of articulating faith and spirituality. Against a missionizing backdrop of western-dominated hymnody and theology, these songs and writings from the fringes of colonialism were embraced by local communities and became their chosen expression of faith. As such, they evoked a lay consciousness quite distinct from official theologies of the church. In Walsalam and Kochukunju, along with other Christian writers of their period and culture, we see a unique interweaving of local traditions and the global Christian message, one that transformed social and spiritual relationships for individuals and their communities alike.
