Christians, Free Expression, and the Common Good Gordon S. Jackson, 2015-05-27 Christians of all theological and political backgrounds ought to be ardent advocates of advancing not curbing freedom of speech within their own ranks and in the increasingly secular societies in which they live *Christians Free Expression and the Common Good* presents the concept of free expression and its opposite of censorship as a tool for the Western church and the U S church in particular to respond more wisely and effectively to controversy In their most severe form these controversies lead to both formal and informal limitations on free expression as Christians seek to silence those with whom they most stridently disagree This study is timely given the Western church's current state of flux as it tries to determine its identity and mission in a post Christian setting *Christians Free Expression and the Common Good* will appeal to a wide range of thoughtful religious scholars and others who would welcome ideas on how the church should refine
