Barry, 2012-03-29 Documenting an audacious Franco German movement for moral disarmament instigated in 1921 by war veteran and French Catholic politician Marc Sangnier in this transnational study Gearid Barry examines the European resonance of Sangnier's Peace Congresses and their political and religious ecumenism within France in the era of two World Wars

Political Catholicism and Euroscepticism Bartosz Napieralski, 2017-08-16 This book explores the phenomena of both Political Catholicism and the growth of Euroscepticism across Eastern and Western Europe It focuses in particular on Political Catholicism in Poland but sets this in its wider European context It examines the nature of Political Catholicism as a political movement discusses the circumstances in which Political Catholicism which has traditionally been pro European can turn to being Eurosceptic and argues that Political Catholicism in Poland is a special case because of its Catholic nationalist nature The book concludes by assessing the role religion plays in the politics of modern Europe and outlines the implications for the future studies of European integration

Between Yesterday and Tomorrow Christian Bailey, 2013-10-01 An intellectual and cultural history of mid twentieth century plans for European integration this book calls into question the usual pre and post war periodizations that have structured approaches to twentieth century European history It focuses not simply on the ideas of leading politicians but analyses debates about Europe in civil society and the party political sphere in Germany asking if and how a permissive consensus was formed around the issue of integration Taking Germany as its case study the book offers context to the post war debates analysing the continuities that existed between interwar and post war plans for European integration It draws attention to the abiding scepticism of democracy displayed by many advocates of integration indeed suggesting that groups across the ideological spectrum converged around support for European integration as a way of constraining the practice of democracy within nation states

Re-Inventing Western Civilisation Niklas Olsen, Hagen Schulz-Forberg, 2014-08-20 The volume shows that neoliberalism concerns a tradition carried by a network of people who understood themselves as liberals and at times as neoliberals and who sought to create societies based on individual freedom and a free market economy It also

shows that neoliberalism emerged as a transnational and multilingual phenomenon and that it cannot be reduced to one doctrine or practice The book will enrich the reader s knowledge of the political ideological landscapes and developments in various European regions and countries in addition to transforming the overall picture of European neo liberalisms in the twentieth century
