Christian Prophecy The Post Biblical Tradition:

Christian Prophecy Niels Christian Hvidt, 2007-04-19 Throughout the Hebrew Bible God guides and saves his people through the words of his prophets When the prophets are silenced the people easily lose their way What happened after the incarnation death and resurrection of Christ Did God fall silent The dominant position in Christian theology is that prophecy did indeed cease at some point in the past if not with the Old Testament prophets then with John the Baptist with Jesus with the last apostle or with the closure of the canon of the New Testament Nevertheless throughout the history of Christianity there have always been acclaimed saints and mystics most of them women who displayed prophetic traits In recent years the charismatic revival in both Protestant and Catholic circles has once again raised the question of the place and function of prophecy in Christianity Scholarly theological attitudes toward Christian prophecy range from modest recognition to contempt Mainstream systematic theology both Protestant and Catholic has mostly marginalized or ignored the gift of prophecy In this book however Niels Christian Hvidt argues that prophecy has persisted in Christianity as an inherent and continuous feature in the life of the church Prophecy never died he argues but rather proved its dynamism by mutating to meet new historical conditions He presents a comprehensive history of prophecy from ancient Israel to the present and closely examines the development of the theological discourse that surrounds it Throughout though there is always an awareness of the critical discernment required when evaluating the charism of prophecy The debate about prophecy Hvidt shows leads to some profound insights about the very nature of Christianity and the church For example some have argued that Christianity is a perfect state and that all that is required for salvation is acceptance of its doctrines Others have emphasized how God continues to intervene and guide his people onto the right path as the full implementation of God's salvation in Christ is still far away This is the position that Hvidt forcefully and persuasively defends and develops in this ambitious and important work

Biblical Inspiration and the Authority of Scripture Carlos R. Bovell, 2015-07-24 It has been some time since Catholic and liberal Protestant theologians stopped writing seriously on bibliology Meanwhile conservative evangelical theologians guard against the introduction of new ideas In an effort to make headway through this gridlock Carlos Bovell has commissioned a roundtable discussion on the prospect of whether the inspiration of Scripture might extend beyond authors and texts and if so what this might entail for the authority of Scripture Taken together the essays in this volume make an invaluable contribution to contemporary literature on the inspiration and authority of the Bible

Handbook of Christian Prophetism in Africa, 2025-08-14 More than half a century has passed since the first monographs on African Christian prophetism were published The prophetic element was only the most dramatic and prominent part of developments that sought to bring the biblical material alive in ways that had not been experienced in the ecclesiology of Western mission Christianity The ministries of African charismatic figures of the early 20th century were oriented towards the biblical phenomenon of the prophetic and the related issue of divine or faith healing sometimes even to the neglect of the

use of bio medical resources The developments have been interrogated in religious studies theology and the sociology and psychology of religion showing how important these churches have been in the African public sphere

Medjugorje and the Supernatural Daniel Maria Klimek, 2018 In 1981 six young people in the village of Medjugorje in what was then Yugoslavia now Bosnia Herzegovina reported that the Virgin Mary had appeared to them The Medjugorje visionaries say that Mary has returned every day since then bringing them important messages from heaven to convey to the world Over the past three decades the Medjugorje visionaries have been subjected to extensive medical psychological and scientific examination even while undergoing their visionary experiences Daniel Klimek analyzes the scientific studies on the visionaries in juxtaposition with the major scholars and debates surrounding religious experience and concludes that a multidisciplinary approach grants a more holistic and deeper understanding of such extraordinary religious experiences

Rewriting Magic Claire Fanger, 2015-06-18 In *Rewriting Magic* Claire Fanger explores a fourteenth century text called *The Flowers of Heavenly Teaching* Written by a Benedictine monk named John of Morigny the work all but disappeared from the historical record and it is only now coming to light again in multiple versions and copies While John's book largely comprises an extended set of prayers for gaining knowledge *The Flowers of Heavenly Teaching* is unusual among prayer books of its time because it includes a visionary autobiography with intimate information about the book's inspiration and composition Through the window of this record we witness how John reconstructs and reconsecrates a condemned liturgy for knowledge acquisition the *ars notoria* of Solomon John's work was the subject of intense criticism and public scandal and his book was burned as heretical in 1323 The trauma of these experiences left its imprint on the book but in unexpected and sometimes baffling ways Fanger decodes this imprint even as she relays the narrative of how she learned to understand it In engaging prose she explores the twin processes of knowledge acquisition in John's visionary autobiography and her own work of discovery as she reconstructed the background to his extraordinary book Fanger's approach to her subject exemplifies innovative historical inquiry research and methodology Part theology part historical anthropology part biblio memoir *Rewriting Magic* relates a story that will have deep implications for the study of medieval life monasticism prayer magic and religion

A Catholic Reading Guide to Universalism Robert Wild, 2015-08-14 This reading guide to some of the philosophical and theological literature on universalism offers practical help in providing informed material on a topic that is often treated in a superficial and unenlightened manner The reader may be surprised to learn that universalism was the predominant belief in the early centuries and that it has always been present in the Christian tradition Spurred on by Von Balthasar's book *Dare We Hope That All Men Be Saved* Robert Wild's guide provides current studies that support Von Balthasar's arguments that universalism is a legitimate hope for the Christian

Hearing God's Voice: Towards a Theology of Contemporary Pentecostal Revelatory Experience Tania M. Harris, 2023-09-25 The revelatory experience or in common parlance hearing God's voice is prized by Pentecostal Charismatic Christians for its contribution to spirituality yet remains one of the most problematic areas of church life Theological tensions and pastoral fallout have plagued the experience since the time of the New Testament Drawing on the tools of practical theology this book presents the findings of a unique and ground breaking study among Australian Pentecostals With a theological framework modelled on New Testament practice and undergirded by the accountability of the local church many of the problems associated with revelatory experience can be addressed and the experience fully harnessed for kingdom purpose

The Discernment of Spirits Wendy Love Anderson, 2011 Anderson succeeds in neatly fitting together selected pieces of the history of discernment of spirits to provide a valuable readable description of the contours of its evolution in the late Middle Ages Debra L Stoudt Virginia Polytechnic Institute and State

University The Medieval Review Late medieval Christians lived in a world of visions but they knew that not all visions came from God angels demons illness nature or passion could also inspire an apparent divine visitation During the thirteenth and fourteenth centuries the involvement of visionaries in everything from reform movements to military campaigns to papal schisms raised the political and spiritual stakes of determining whether or not a vision was truly from God In response a diverse group of medieval thinkers including men and women clergy and laity visionaries and theologians gradually began to transform the loose patristic readings of Pauline *discretio spirituum* into a system with the potential to distinguish between true and false visions and between genuine and delusional visionaries Wendy Love Anderson chronicles the historical political and spiritual struggles behind the flowering of late medieval mysticism and what came to be seen as the Christian doctrine of discernment of spirits
