the USEC workshop was to engage on all aspects of human factors and usability in the context of security The goal of the WECSR workshop was to continue searching for a new path in computer security that is Institutional review boards at academic institutions as well as compatible with ethical guidelines for societies at government institutions

Security/Capital Rigakos George S. Rigakos,2016-03-18 What is security and what is its relationship to capitalism George S Rigakos explosive treatise charts the rise of the security industrial complex Starting from a critical appraisal of productive labour in the works of Karl Marx and Adam Smith Rigakos builds a conceptual model of pacification based on practices of dispossession exploitation and the fetish of security commodities Rigakos argues that a defining characteristic of the global economic system is its ability to productively sell in security to those it makes insecure Materially and ideologically the security industrial complex is the blast furnace of global capitalism fuelling the perpetuation of the system while feeding relentlessly on the surpluses it has exacted

Surveillance or Security? Susan Landau,2011-01-28 How in the name of greater security our current electronic surveillance policies are creating major security risks Digital communications are the lifeblood of modern society We meet up online tweet our reactions millions of times a day connect through social networking rather than in person Large portions of business and commerce have moved to the Web and much of our critical infrastructure including the electric power grid is controlled online This reliance on information systems leaves us highly exposed and vulnerable to cyberattack Despite this U S law enforcement and national security policy remain firmly focused on wiretapping and surveillance But as cybersecurity expert Susan Landau argues in Surveillance or Security the old surveillance paradigms do not easily fit the new technologies By embedding eavesdropping mechanisms into communication technology itself we are building tools that could be turned against us and opting for short term security and creating dangerous long term risks How can we get communications security right Landau offers a set of principles to govern wiretapping policy that will allow us to protect our national security as well as our freedom
