Balancing Privacy and Free Speech Mark Tunick, 2014-08-21 In an age of smartphones Facebook and YouTube privacy

may seem to be a norm of the past This book addresses ethical and legal questions that arise when media technologies are used to give individuals unwanted attention Drawing from a broad range of cases within the US UK Australia Europe and elsewhere Mark Tunick asks whether privacy interests can ever be weightier than society s interest in free speech and access to information Taking a comparative and interdisciplinary approach and drawing on the work of political theorist Jeremy Waldron concerning toleration the book argues that we can still have a legitimate interest in controlling the extent to which information about us is disseminated The book begins by exploring why privacy and free speech are valuable before developing a framework for weighing these conflicting values By taking up key cases in the US and Europe and the debate about a right to be forgotten Tunick discusses the potential costs of limiting free speech and points to legal remedies and other ways to develop new social attitudes to privacy in an age of instant information sharing This book will be of great interest to students of privacy law legal ethics internet governance and media law in general
