Introduction to Alpine Gardens - Making a Rock Alpine Garden Dueep Jyot Singh, John Davidson, 2015-05-06 Table of Contents Introduction to Alpine Gardens Introduction Planning Your Garden Why Do You Want an Alpine Garden Choosing the Right Site Preparation of the Site Water in Your Rock Garden Placing of the Rocks Placement of the Stones Soil in Your Rock Garden Making a Scree Trees and Dwarf Shrubs in Your Garden Conifers Junipers Pines Thuya Picea Recommended Shrubs Selection of Alpine Plants Selection of Sun Loving Rock Plants Rock Plants for a Shady Position Conclusion Author Bio Publisher Introduction The making of any sort of garden is not as easy as many people imagine and it is often these very people who fail to achieve their own wishes when the garden is made This is the reason why just dreaming up a garden and visualizing it whether it is an Alpine Garden a rock garden or an ordinary garden needs effort dedication and application on your part Far too frequently you plan the garden quickly You have not given the subject adequate thought You have rushed in the work with lots of haste and thus making a waste of perfectly good land The result more or less of failure is going to be a sad and annoying reminder of your lack of patience and technical knowledge Just imagine that you are making a garden in the same manner in which you are constructing your house This is a skilled job You are not going to start building your house without proper thought finances plans and timescales are you You

are also going to take the expert assistance of a trained architect and contractors who are more skilled in building houses In the same manner many people fail to make their gardens what they might be just because they are too stubborn to call in an expert or because they do not possess some of the essential technical knowledge needed to make a garden When you are planning any sort of pattern of reasonable dimensions it may be wise to take some advice from an expert gardener Also remember that if you are taking professional advice you may need to look at his fees beforehand in order to prevent escalating costs right at the initial stages of the project itself This does not mean that you cannot have your own individual ideas carried out for a garden because after all it is a reflection of the heart body mind and soul of the person who plans it You want to create a thing of beauty and a joy forever
